SSL Update for ics2ws.ic3.com and batch.cybersource.com

The following section describes the steps to update your Java keystore with the CyberSource domain certificate for either the Simple Order or SOAP toolkit APIs (ics2ws.ic3.com) or batch upload (batch.cybersource.com).

1. Download the CyberSource domain certificate for either ics2ws.ic3.com or batch.cybersource.com

   batch.cybersource.com.zip
   ics2ws.ic3.com.zip

   Browse to a link above. Save the zip file. Unpack the certificate file in the zip.

2. Import the certificate into your java keystore
   Using the command line, type the following command without line breaks for Simple Order / SOAP Toolkit:

   - keytool -import -alias ics2ws.ic3.com -keystore JAVA_HOME/jre/lib/security/cacerts -file ics2ws.ic3.com.crt

   Using the command line, type the following command without line breaks for Batch Upload:

The CPU's speed is measured in MHz (megahertz) or more recently in GHz (gigahertz). A chip with a megahertz rating of 900 MHz would be able to complete 900 million cycles every second. This means the higher the Clock Speed the faster the computer works.

Today's computers are powered with a minimum of 1 GHz processing speed. The most common type of processor is the Intel Pentium 4 from Intel Corp. Its processors have a speed of more than 2 GHz.

YOU HEARD ME SAY THAT DOING NOTHING WILL END UP COSTING YOU TWICE AS MUCH. RIGHT?
YES
AND YOU UNDERSTAND THAT THIS IS YOUR ONLY ALTERNATIVE?
I HAVE ANOTHER MEETING. MAYBE DILBERT CAN EXPLAIN IT TO YOU.
UM... OKAY. I'LL TRY
MY BOSS DOESN'T UNDERSTAND THAT COSTS SHOULD BE COMPARED TO ALTERNATIVES.

How to use keyboard-layout-editor.com

Getting Started

- Try adding some of the different keys from the palette at the top of the page. It will give you a good idea of the editor's capabilities.
- Set a key's color by clicking on it. Then click on the color you'd like from the palette.
- You can select multiple keys by holding down Ctrl and clicking on them. You can also do a click-and-drag selection by Ctrl-clicking in an area. You can also do drag selection for single and multiple keys while they're selected.
- Try the keyboard shortcuts listed below. They make entering large properties much faster.
- You can save your layout to the server by clicking the "Save" button on the top bar.
- You can save your layout locally by bookmarking the "Permalink" (or the import string) in your bookmarks.

Keyboard Shortcuts

?	Show this help dialog
↑ ← ↓ →	Move the selected keys
Shift + ↑ ← ↓ →	Resize the selected keys
Ctrl + ↑ ← ↓ →	Move the color selection for the selected keys
PgUp / PgDn	Change the angle of rotation for the selected keys
Tab	Add a new key
Del	Delete the selected keys
Esc	Edit the text of the selected key
J / K	Select the previous / next key in the array
Ctrl-S	Save your layout on the server
Ctrl-A / Esc	Select / Deselect all keys
Ctrl-Z	Undo
Ctrl-Shift-Z or Ctrl-Y	Redo
Ctrl-X or Shift-Del	Cut the selected keys
Ctrl-C or Ctrl-Ins	Copy the selected keys
Ctrl-V or Shift-Ins	Paste keys from the clipboard

You can think most of these keys make sense, but the keyboard editor has its own ideas.

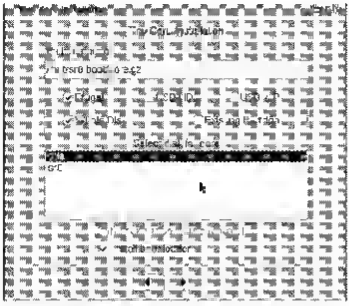
2.1.1. Step 1. Source and destination



In this first step, we need to select the install media, install type and the target. The installer may be able to detect the install media automatically as in this image; if not, click on the "Path" entry to manually browse for the install media.

The three install types on Plugged USB HDD and USB ZIP Plugged is the default type. It may be installed to a partition, and usually works. Install to Hard Disk is for USB-HDD mode thumb disk and is slightly different formatting, which may help the USB thumb boot on computers where this would not. USB-ZIP is for older BIOSes that needed ZIP drive emulation in order to boot from USB

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

CONEXANT

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Wireless Quick Start Guide

To make a wireless connection between the HP printer and a wireless network, choose one of the following methods:

Method 1: Use the HP printer software on the computer

Note: Use this method if you have already installed the HP printer software on your computer and that the printer is not already connected to the network with an Ethernet cable.

1. Make sure you have installed the HP printer software on your computer and that the printer is not already connected to the network with an Ethernet cable.
2. Follow the instructions for your operating system:
   - **Windows:**
     Click Start, click Programs or All Programs, click HP, click the folder for your printer, click Printer Setup & Software, click Convert a USB connection to Wireless, and then follow the onscreen instructions.
   - **MAC OS X:**
     Double-click the HP Utility icon (located in the Hewlett-Packard folder in the Applications folder at the top level of the hard disk), click the Applications icon on the HP Utility toolbar, double-click HP Setup Assistant, and then follow the onscreen instructions.

Method 2: Use the Wireless Setup Wizard on the printer's control panel

Note: To connect using this method, you must have a wireless network set up and running.

Tip: Find out the name of your wireless network (SSID) and wireless password (WEP Key or WPA password) if you are using security. You can sometimes find them on the back or side of the wireless router if you have not changed them.

1. Make sure the printer is not connected to the network with an Ethernet cable.
2. On the printer touch Setup, touch Network, touch Wireless Setup Wizard, and then follow the onscreen instructions.
3. After you have completed the Wireless Setup Wizard, add the printer in your computer:
   - If you have not yet installed the HP printer software: Insert the HP software CD into your computer and follow the steps depending on your operating system:
     - **Windows:**
       When prompted, click Network (Ethernet/Wireless), and then follow the onscreen instructions.
     - **MAC OS X:**
       Double-click the HP Installer icon on the software CD, and then follow the onscreen instructions.
   - If you have already installed the HP printer software, complete the following steps depending on your operating system:
     - **Windows:**
       Click Start, click Programs or All Programs, click HP, click the folder for your printer, click Printer Setup & Software, click Connect a New Printer, and then follow the onscreen instructions.
     - **MAC OS X:**
       Double-click the HP Utility icon (located in the Hewlett-Packard folder in the Applications folder at the top level of the hard disk), click the Applications icon on the HP Utility toolbar, double-click HP Setup Assistant, and then follow the onscreen instructions.

Tip:
If you need further help, see the Getting Started Guide provided in-box with the printer, visit the HP Wireless Printing Center (www.hp.com/go/wirelessprinting), or contact your network administrator or the person who setup your network.

Refilling Canon PGI-220 CLI-221 Cartridges

Step 1 Seal off the bottom outlet hole with original orange or wax or aftermarket storage clips. (Available at Precision Colors) In a pinch, flexible tape e.g. electrician PVC vinyl tape or duct tape can be used. Make sure it seals all around the edges of the hole. *If it leaks it can gut messy*

Step 2. Remove part of the label covering the ball as shown. Use a sharp knife to cut the label and then using same tool raise the corners of the label to peel back. It is easiest if you have a pair of tweezers but is not absolutely necessary. *Alternatively just remove a small part of the label above the ball.* Unshot.

Step 3. Remove the ball plug. Using the push pin, make a starter hole in the small ball then heat the pin tip with a cigarette lighter or candle and enlarge the hole a little more. Use the heated self tapping eyelet or hook, screw it into the starter hole until a grab hold of the ball well and the ball move. At this point you can pull the ball out clearly with out causing ng the ball holding hub. Alternatively you may drill a 5/32" hole directly into the tank if you find the previous ball removing process too fiddly

Step 4. Remove any remaining ink on the tank side and place it into the bottle of ink of similar color. This is only done the first time the cartridge is being prepared. Skip this step when refilling the second time and thereafter

Step 5. If it a 5/32" drill bit and enlarge the ball hole very slightly. This will allow the plug to fit perfectly so that removal is easy yet tight enough to allow a perfect airtight seal.

Step 6. Assemble the syringe and needle. Draw the correct ink into the syringe approx 7 5cc and fill the tank side up until 1/8" from the top.

Step 7. Insert the plug until it fits flush with the top. It must fit flush as illustrated.

Step 8. Get some tissue paper handy and placing it around the bottom outlet hole, remove the tape or bullet cover. Small ink may leak out so be ready for it. If ink continues to drip out after two or three drops then re-seal the hole on the tank side. Try reinserting the plug after resealing the bottom outlet. Check that the ink outlet sponge was not pushed up into the cartridge. If so, use a small needle or tweezers and pull it back down. Do not install into the printer if the ink drips. At this point it is a good idea to take a paper towel and work some ink out of the ou tlet sponge. The ink tank cartridge is properly refilled when the ink does not drip.

Step 9. Reinstall in printer and run cle, or more clean ng cycles and nozzle checks to verify that ink is flowing properly and all nozzles are clear.

Individual Training Grants

WORKFORCE 1

Frequently Asked Questions

View our ITG webinar at www.nyc.gov/trainingguide and contact your local Workforce1 Career Center for more information.

➢ What is an Individual Training Grant?
Individual Training Grants (ITGs) help qualified jobseekers get specialized job training to find a new job or advance in their careers

➢ Who is eligible to apply for an Individual Training Grant?
You must:

- Be at least 18 years old
- Have an updated resume available electronically (Resume Workshops are available)
- Be actively looking for employment or currently employed and earning less than $62,894/year
- Be ready to work immediately after training
- Have a minimum of a GED or High School diploma and work experience (some occupations require a degree)
- Register at a Workforce 1 Career Center

Other services are available for individuals who do not meet eligibility requirements

➢ How can I apply for an Individual Training Grant?
The application process is highly selective. At each step you will receive approval to move forward or referral to other services. Completing an application does not guarantee receipt of an ITG. ITG training is not an entitlement. Selection for participation is based on your eligibility, assessment of your needs, skill level, and your prospects for successfully completing the program and achieving employment in this field.

The application process takes 4-8 weeks and includes the following steps:

1. Participation in services (such as Introduction to Services, Career Advisement, workshops, etc.) within the last 6 months
2. Meeting education and experience requirements (see next page)
3. Viewing a presentation about the application process and taking a skills test
4. Researching courses on the NYC Training Guide and completing an online application
5. Interviewing with a Career Advisor

➢ Why are there education and related work experience requirements?
To gain employment in the fields in which ITGs are offered, major employers and job ads indicate that relevant work experience and skills are required. ITGs do not provide all of these required skills and experience, instead, they assist jobseekers that already have some skills and experience with additional technical training or certifications that are required to get a job in the field.

If you do not have related work experience, the ITG training will not provide you enough skills to get you a job in the field. If you have a lot of related work experience or certifications, ITG training may not be useful to you because you already have the skills and certifications needed to obtain employment within the field. It is also important to note that your work experience should be recent. Having recent and related experience will make you the most competitive candidate for training and employment.

If you do not meet these education and experience requirements, Workforce1 has other services that may assist you. Please ask for an appointment with a Career Advisor to discuss other available options.

➢ Does education and experience from another country count towards the education and experience requirements?
Yes. Individuals may count their related work experience and education from other countries towards the eligibility requirements.

Dear Families,

We are so excited to be preparing for our annual field trips. Our first field trip will be a play by the Georgia Ensemble Theatre and Conservatory. They will be presenting "AESOP FABLES" This coincides with our initiative of ARTS NOW. Drama is an art form that helps our students to see emotion and personalities come to life right out of a book and turned into a play. The program will be shown on September 27th in our own gym.

The total cost for each student is $4. All money must be collected on or before September 14, 2012. No child will be denied the opportunity to attend because of nonpayment, but if enough money is not collected to cover the cost, we will have to cancel the field trip. Please complete and return the bottom portion of the permission slip with your payment. You may also use the MealPay Plus on-line option for payment.

Thank you for your support.

Our Father, which art in heaven,
hallowed be thy name,
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil.
[For thine is the kingdom,
the power, and the glory,
for ever and ever]
Amen

Yesterday, a man said to me,
He said how can you smile when your world is crumbling down
I said, here's my secret, when I wanna cry, I take a look around
And I see that I'm getting by
And I hold on
Hold On
A change is coming
Change is coming
Hold on
Hold on
Don't you worry
Don't worry that's thing
Hold on
Hold on
You can make it
You can make it
Hold on
Hold on
Everything
everything will be alright
Some people like to worry
Some people like to run away
Some people like to run away
Some people like to run away

A man walked in to Joe's Barber Shop for his regular haircut. As he snips away, Joe asks "What's up?"
The man proceeds to explain he's taking a vacation to Rome.
"ROME?! Joe says. "Why would you want to go there? It's a crowded dirty city full of Italians! You'd be crazy to go to Rome! So how ya getting there?"

"We're taking TWA," the man replies.
TWA?! yells Joe. "They're a terrible airline. Their planes are old, their flight attendants are ugly and they're always late! So where you staying in Rome?"

The man says "We'll be at the downtown international Marriot.
That DUMP?! says Joe. "That's the worst hotel in the city! The rooms are small, the service is surly and slow and they're overpriced! So what cha doing when you get there?"

The man says "We're going to go see the Vatican and hope to see the Pope
HA! That's rich! laughs Joe. "You and a million other people trying to see him. He'll look like a speck of an ant. Boy, good luck on THIS trip. You're going to need it!

A month later, the man comes in for his regular haircut. Joe says "Well, how did that trip to Roma turn out? Betcha TWA gave you the worst flight of your life!
No, quite the opposite, explained the man. "Not only were we on time in one of their brand new planes, but it was full and they bumped us up to first class. The food and wine were wonderful, and I had a beautiful 28 year old flight attendant who waited on me hand and foot!

Hmmm," Joe says, "Well, I bet the hotel was just like I described.
No, quite the opposite! They'd just finished a $25 million remodeling. It's the finest hotel in Rome, now. They were overbooked, so they apologized and gave us the Presidential suite for no extra charge!

"Well," Joe mumbles, "I KNOW you didn't get to see the Pope!
Actually, we were quite lucky. As we toured the Vatican, a Swiss guard tapped me on the shoulder and explained the Pope likes to personally meet some of the visitors, and if I'd be so kind as to step into this private room and wait, the Pope would personally greet me. Sure enough, after 5 minutes the Pope walked through the door and shook my hand. I knelt down as he spoke a few words to me.

Impressed, Joe asks, "Tell me, please! What'd he say?"
Oh, not much really. Just "Where'd you get that awful haircut?"

your anger profile 1

for you to know

While each person's experience with anger is different. It's important to recognize your own personal profile so you can learn to head off anger before it gets the best of you. Assessing your anger will help you become more aware of how much it drives your behavior.

Terrence was having a really bad day. Mr. Williams, Terrence's English teacher, noticed that he seemed angry about something. "Oh no," thought Mr. Williams. "Terrence is in one of his moods. He's so smart and talented, but his anger is really hurting him. He's going to get into trouble if he doesn't turn it around."

After class, Mr. Williams called Terrence over and said, "You take everything so seriously, Terrence. Your anger is beginning to get in the way of your schoolwork, and I'm really worried about you. You've been suspended three times this year and you're constantly in the principal's office. Let me help you. What do you say?"

Terrence knew that Mr. Williams was right. So he nodded his head and said, "Yeah, okay."

"Great," Mr. Williams said. "We'll begin by taking a good look at your anger. Once we see what effect it has on you, we can start to come up with a plan to help you manage it."

#1 sets the starting method. The factory setting uses Tach-less starting. If you wish to use the tach to start, follow the instructions in 13A.

#2 sets the choice of run times.

#3 will add 50% more crank time to starting.

#4 adds 100% more crank time. This is necessary on many diesel and hard to start vehicles. Options #3 and #4 can be added together for even more cranking time.

#5 is used in the "No-Tach" starting method for some diesel vehicles.

#6 option must be activated when installing on a diesel vehicle.

#7 cancels the Enable mode safety feature. The Enable mode requires that the driver toggle the ON/OFF control switch OFF then ON each time the driver removes the key from the ignition in order to enable the vehicle for AutoCommand® control. This feature guards against unwanted starting of the vehicle by remote control.

#8 This option will turn the headlights on about 3 seconds after it sees the key in the ignition position and turn it off when the key is removed from the ignition.

If you want the factory settings, DO NOTHING and skip this section. If you want to change to one of the options, TURN THE ON/OFF CONTROL SWITCH TO THE OFF POSITION. Wait for the red LED to stop flashing. Then continue with the following procedure:

A. Push the white button to the left of the red LED. Each time you push the button the red LED will flash 1 to 8 times signifying of which option you are on. At once the LED flashes once. Press it again and it will flash two times. Press it again and it will flash three times, etc., to show what option you are on.

B. When you are at the option level you desire, push the transmitter button for 1 second and the red LED will flash once for Option setting and twice for returning to the factory setting.

C. In 10 seconds the AutoCommand® automatically exits the programming mode (Three LED flashes). You can choose the next option by starting over again with Step A.

D. When finished – Switch the Control Switch back ON. The LED will flash once.

SPECIAL CASES

1) Code Learning

The transmitter is uniquely coded to one of over 1,000,000 different codes. The AutoCommand® module can learn the codes of up to 4 different transmitters. It should have been taught the code at the factory but if not, follow the steps below to teach the receiver the transmitter code(s):

A. Turn the Control Switch on.

B. Push and release the test button to the right of the red LED. The red LED, ignition and accessories come on for a second.

C. Hold down the button on the transmitter until the red LED, ignition and accessories come on. The module has now learned the transmitter code. Release hold on the transmitter button.

D. To learn additional transmitters (up to 3 more) immediately (within 5 seconds) push the button on another transmitter for a few seconds until the red LED, ignition and accessories come on.

E. Wait 5 seconds after the last time the transmitter was pushed to exit the code-learning stage. (The LED, ignition and accessories flash on 4 times).

Note: You have only 5 seconds between transmitters to begin teaching a new transmitter.

2) VATS system (for GM cars with special PASS key)

If you have a GM vehicle with a factory anti-theft system (a resistor in the key), you need to follow these directions below. However for a few 1995+ GM vehicles (Saturn, Skylark, Chevrolet Cavalier, Oldsmobile Achieva and the Pontiac Sunfire) you must get tech tip #1 from DesignTech.

Measure the resistance of the key. It should be between 390 ohms and 11,800 ohms. To do this, put the ohm meter probes on each side of the key pellet. This value should be close to one of the following (all values in ohms): 390, 523, 681, 887, 1,130, 1,470, 1,870, 2,370, 3,010, 3,740, 4,750, 6,040, 7,500, 9,530, 11,800. Purchase a resistor with a value within 5% of the measured value and a 30 amp BOSCH type relay (or purchase DesignTech VATS kit part number 20041).

Locate the pair of VATS wires (sometimes White/Black striped and Purple/Black striped) running behind the dash from the passenger side to the driver's side behind the key switch. Connect our ignition 2 (#4A) WHITE/BLACK wire to pin 86 and ground pin 85 on the relay. Cut ONE of the VATS wires and connect the key-side (Ignition side) to NC pin 87A. And the other side (Engine side) to common pin 30. Connect the other VATS wire to NO pin 87 with the selected resistor soldered in line as shown here.

Some of the newer GM vehicles have a slight variation on the wiring for the VATS system. On these cars, there is an ORANGE wire (actually a vinyl sleeve that contains smaller wires). It is located underneath the steering column near the YELLOW sleeve that is labeled Air bag wiring. Slit the ORANGE sleeve open to expose two sets of wires which are either both white OR both yellow, OR both black.

Note: When installing a VATS bypass system, the WHITE/BLACK IGN2 wire must only go to the VATS relay. If you need IGN2 in the car simply supply power to the IGN2 wire of the vehicle by jumping power from the GREEN IGN1 wire. (This GREEN will be a jumper up 3 wires behind the fuse).

For GM Vehicles with the Pass Lock System: 1995+ Chevrolet Cavalier Z24, Pontiac Sunfire GT and 1996+ Pontiac Sunfires and Grand Am, Olds Achieva, Buick Skylark and Chevrolet Cavalier, order tech tip document #1313 to work around this system.

3) Diesel Vehicles: The following chart outlines the options that need to be set on diesel vehicles. Use the Chrysler settings for all other diesel vehicles.

Option	6 Diesel	3 Ext. Crank	4 Super Crank	5 Manual/No-tach
Chrysler	X	X		
Ford	X	X		X
Chevrolet	X	X	X	X

USER TIPS

The transmitter button functions as follows.
Push Button: Once – Start the car
Again – Stop the car

Important Note:
Make sure that all drivers who will be operating the AutoCommand® car fully aware of the safety precautions installed and their limitations. Stress the importance of switching the On/Off control switch to the OFF position (down) every time the car is serviced. Show the user how the control switch must be turned off and on again after pulling out the key before leaving the car. If the user forgets to enable the AutoCommand® when they leave the vehicle they can enable it by pushing and holding the transmitter button for 4 seconds. Give the user a copy of the two-page USER TIPS AND NOTES so that they can familiarize themselves with the product.

USER INFORMATION: The two USER TIPS AND NOTES sheet gives you further detail regarding daily use of the product. Any modifications not expressly approved by DesignTech will void the user's authority to operate the equipment.

OTHER ACCESSORIES
A. Extra transmitter functions than one user in the family. Up to four transmitters can be used with each receiver in the vehicle.
B. Garage Door Receiver Unit will allow the same AutoCommand transmitter to operate an electric garage unit.
C. A timer module to automatically start your car at a certain time.

The following installation accessories are available through your dealer or DesignTech. All prices are in U.S. dollars. Shipping and handling costs are included.

#20081	Extra 1 button transmitter	$44.95
#20501	extra transmitter lithium battery	$3.95
#20041	VATS kit	$14.95
	(to work with the GM PASS key system)

Instruction sheet for Impreso® Greeting Card Products

Tips for getting the best prints from Impreso® Brand Greeting Cards & Envelopes

Required Equipment

- Creative Software
- Ink Jet Printer
- Plain Paper
- Impreso Greeting Cards & Envelopes

Design Your Greeting Card

- Utilizing your favorite creative software, following the instructions to design your greeting card.
- Use photos you have scanned, or directly from your digital camera

Printing Your Greeting Card

- For 1/2 fold Greeting Card it is necessary to print both sides of the paper
- (For Photo or Matte Coated Greeting Cards, please refer to your printer loading instructions.)
- Place one (1) sheet of Impreso Greeting Card in your printer, print your cover design
- Remove the Greeting Card from the printer tray. Place the Greeting Card back in the printer so that the blank side will be printed
- Tip: Using a plain piece of paper, test how the paper should be loaded to insure proper printing.

Printing Your Envelope

- Envelope printing varies by printer model and software. Please refer to your owners manual for tips on printing your envelopes

SET UP IPOD TOUCH

Sync with iTunes

Syncing with iTunes copies information from your computer to iPod touch, and vice versa. You can sync by connecting iPod touch to your computer, or you can set up iTunes to wirelessly sync music, videos, photos, and more with Wi-Fi. For help syncing iPod touch, open iTunes on your computer, choose Help > iTunes Help, then select "Add items to iPod, iPhone, or iPad." iTunes is available from the iTunes website.

Note: If features such as iCloud Music Library, iCloud Photo Library, and iCloud calendar and contacts syncing are turned on, you can't use iTunes to sync their associated media and data.

Sync using a USB cable. Connect iPod touch to your computer using the included cable, open iTunes on your computer, then click the iPod touch button in the top-left of the iTunes window. Select a setting (Summary, Apps, or Music, for example) to configure it.

Note: If iPod touch doesn't appear in iTunes, make sure you're using the latest version of iTunes, check that the cable is correctly connected, then try restarting your computer.

To learn more, see the Apple Support article Sync your iPhone, iPad, or iPod touch with iTunes using USB.

Set up wireless syncing. Connect iPod touch to your computer using the included cable, open iTunes, click the iPod touch button in the top-left of the iTunes window, click Summary, then select Sync with this iPod touch over Wi-Fi.

If Wi-Fi syncing is turned on, both iPod touch and your computer are on and connected to the same wireless network, and iTunes is open on your computer, iPod touch syncs when it's connected to a power source.

To learn more, see the Apple Support article Sync your iPhone, iPad, or iPod touch with iTunes using Wi-Fi.

iTunes provides these syncing options:

- In the Music pane, you can sync your entire music library or just selected playlists, artists, albums, and genres.
- In the Movies, TV Shows, Podcasts, and Books panes, you can choose to sync all the media they contain, or just the media you choose.
- In the Photos pane, you can sync photos and videos from a supported app or a folder on your computer.
- In the Summary pane, you can set iTunes to automatically sync iPod touch when it's attached to your computer. To temporarily prevent syncing after you attach the device, press and hold Command and Option (Mac) or Shift and Control (PC) until you see iPod touch appear at the top of the iTunes window.

Rechargeable Battery Charger

Quick setup manual

SPECIFICATION.

Battery type: AA, AAA NiCd and NiMh
Input voltage for AC/DC adapter: 100-240 VAC but MUST have the proper adapter. Selecting a lower or AC used will damage unit.
Charging current range: 200 mA - 1800 mA
Max charging capacity (capacity of rechargeable batteries): 3000 mAh

MAJOR OPERATING FEATURES:

- Batteries rechargeable batteries in various current (default is 200 mA). The charging current can be set up to 1800 or 1800 mA when two batteries are charged.
- Fast charging - 30 min to charge up 2000 mAh batteries
- Charges both "AA" and "AAA" size batteries at seconds simultaneously
- Current detection to protect rechargeable seconds from over-charging
- Recharges seconds batteries
- Discharge mode (test discharging can then charging) to restore memory effect of rechargeable batteries
- Reconditions old seconds/used batteries by discharging/ charging cycles
- Test function to check the capacities of rechargeable seconds
- Charging/ Discharging operations can be launched independently and simultaneously in each rechargeable battery in the compartments
- Various display modes during charging/ discharging = the charging current (in mA), time elapsed (in hh:mm), the terminal voltage (in V) and accumulated capacities (in mAh or Ah).

CHARGING TIME

Table 1: Charging time with various charging currents

Size of battery	Battery Capacity	Charging current selected (mA)	Estimated seconds time
AA	2000 mAh	800	~2h min
		500	~3 min
		200	~5 h 30 min
		700	~3 h 10 min
		500	~5 h
		300	~8 h
AAA	1000 mAh	700	~1 h min
		400	~150 min
		200	~5 h

USING THE CHARGING UNIT

Example: Charging 4 batteries at charging current of 300, 300, 800 or 1800 mA

1. Plug the transformer into the power source.
2. Insert the four seconds in a continuous action within 5 seconds.
3. "Charge" and the battery voltage will be displayed in the LCD (voltage on the 2nd charge), mode is the default mode

Press and hold the MODE key for 2 seconds, within 5 seconds then charging the battery. Press and release the MODE key to select Charge, Discharge, Refresh or Test mode
It has been charged. It will charge to show "200 mA and "Charge" and will start charging at 200 mA after 4 batteries

4 Within 5 seconds after inserting the batteries, select the charging current by pressing the CURRENT key. 300, 800, 1800 or 800 mA may be selected. (1800 & 1800 mA can only be selected if one or two seconds only are charged (type 1 & 4 only)).

5 After 5 seconds from the last key press, the display will blink once to indicate that the time allowed for setting is over and the charging will start.

Once charging has started the current can no longer be changed. The user can then change the current only by taking out all the seconds out and repeating the above steps.

6. "Full" sign (or Visible charge current) will be displayed once the battery is fully charged.

7 During seconds operation by pressing the DISPLAY key various display modes can be sucessively selected.
Note: The charging current of the second, third and fourth battery placed in the charger cannot be set higher than that of the first battery. Therefore one should place the battery with the highest desired charging current in compartment 1.

Stage in charge mode	Various displays (toggled by pressing the DISPLAY key)

recharges. Charging 2 batteries to charging current at 1800 or 1800 mA

1 Plug the transformer into the power source.
2 Insert the two batteries within 5 seconds to compartments 1 & 4 only.

3. "Charge will be displayed in the LCD, as charge mode is the default mode.
4. Within 5 seconds after inserting the batteries select the charging current as 800 or 800 mA by pressing the CURRENT key.
5. 5 seconds after the last key press, the display will blink once to indicate that the time allowed for setting is over and the seconds will start.

Once charging has started, the current can no longer be changed. The user can then change the current only by taking out all the seconds out and repeating the above steps.
6. "Full" sign (or Visible charge current) will be displayed once the battery is fully charged.

Charging two batteries at different rates or the same time

Example: Two batteries in charge mode, one or discharge select and one at test mode.

1 Plug the transformer into the power source.
2. Insert the two batteries for the rating within 5 seconds to compartments 1 and 2.
3. "Charge" will be displayed in the LCD as charge mode, is the default mode.
4. Within 5 seconds after inserting the two batteries, select the charging current as 200, 600, 700 or 800 mA by pressing the CURRENT key.
5. 5 seconds after the last key press, the display will blink once to indicate that the time allowed for battery is over and the seconds will start.

Once charging has started, the current can no longer be changed. Now, batteries in compartment 1 and 2 the rating changed. Insert the third battery for "Test" in compartment 3
7 Within 5 seconds from inserting the battery are selected 3, press the corresponding compartment key "3". Then the No 3 display will be flashing.

Prayer to St. Joseph over 1900 years old

O St Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place n you all my interests and desires O St Joseph do assist me by your powerful Intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ. Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers O St Joseph I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500 s it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or bears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur

Benjamin Franklin Quotes

Robert Maxwell
Wednesday October 18, 2017
History – 3

VII. *Quote* **"Many people die at twenty-five and aren't buried until they are seventy-five."**

Explain. What he is saying here is people aren t being buried fast enough and they should be

VIII. *Quote* **"Never ruin an apology with an excuse."**

Explain What he is saying here is, do not say "I m sorry " And then have an excuse for why you did the thing you re saying I m sorry about in the first place.

IX *Quote* **"We are all born ignorant, but one must work hard to remain stupid."**

Explain What he is saying here is it is hard to remain without knowledge in a world where you are constantly learning whether you think you are or not

X. *Quote* **"Being ignorant is not so much a shame, as being unwilling to learn "**

Explain What he is saying here is, it isn't bad to be uneducated but refusing to be educated is something you should be mocked for

Why did you choose these quotes?

I choose them because I thought they were either funny or just they were nice to know They also look good in my paper

Hi
Vanessa

Ingredients **SERVES 30**

- 3/4 cup butter, softened
- 1 cup white sugar
- 2 eggs
- 1/2 teaspoon vanilla extract
- 2-1/2 cups all-purpose flour
- 1 teaspoon baking powder
- 1/2 teaspoon salt

Directions

- In a large bowl, cream together butter and sugar until smooth. Beat in eggs and vanilla. Stir in the flour, baking powder, and salt. Cover, and chill dough for at least one hour (or overnight).
- Preheat oven to 400 degrees F (200 degrees C). Roll out dough on floured surface 1/4 to 1/2 inch thick. Cut into shapes with any cookie cutter. Place cookies 1 inch apart on ungreased cookie sheets.
- Bake 6 to 8 minutes in preheated oven. Cool completely.

FROSTING

4 cups powdered sugar
½ cup shortening
5 tablespoons milk
1 teaspoon vanilla extract
Food coloring

In a large bowl, cream together the powdered sugar and shortening until smooth. Gradually mix in the milk and vanilla with an electric mixer until smooth and stiff, about 5 minutes. Color with food coloring if desired.

- When using the scanner glass, close the scanner cover. If possible, to avoid dark edges on the scanned image.
- Do not load postcards, photos, small items (transparencies, photo paper or thin media (such as magazine clippings)) into the ADF. Place these items on the scanner glass.
- When the document to be faxed is in place with the settings you want, press ◇ to send the fax.

Sending faxes using the printer control panel

1. From the printer control panel, navigate to

   🏠 > Fax

2. Enter a fax number, or press **Address Book** to select a number from the Speed Dial or Group Dial list.
3. If you want to send a fax to a single recipient, then press ■.

   If you want to send a fax to a group of numbers (broadcast fax), then press the left or right arrow button to enter another number, and then press ■. Repeat this step to add more numbers.
4. Press the **Color/Black** button to select a color or black-and-white fax.
5. Press ◇ to start the fax job.

Warning—Potential Damage: Do not touch the cables or the ⊟ and ☎ ports while actively sending a fax.

Tip

- You can send a broadcast fax to up to 30 recipients.

Sending faxes using the computer

For Windows users

1. With a document open, click **File** > **Print.**
2. Make sure the appropriate printer is selected, and then click **Properties, Preferences, Options,** or **Setup.**
3. Click the **Fax** tab, and then make sure **Enable Fax** is selected.
4. Enter the recipient fax number or numbers in the **Fax number(s)** field.

   You can enter fax numbers manually or by using the **Phone book** feature.
5. If necessary, enter a prefix in the **Dialing Prefix** dialog.
6. Select the appropriate paper size and page orientation.
7. Select **Include Cover Page with Fax,** and enter the appropriate information if you want to include a cover page with the fax.

Hello! Stan Fax

This is a sample text file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file, many other file types are supported.

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 8AM to 5.30 PM M-F Pacific Time
E-Mail: ins-support@interpage.net
Web: http://www.interpage.net

Thank you for your interest!

The Test

Notes: 1. Due to the abuse of the FreeFax service, Interpage will no longer transmit person-to-person text messages, only system level sample messages will be transmitted. You may establish a trial account for evaluation purposes by filling out the form located at *http://www.interpage.net/sub-fax-trial.html*, supplying any billing information, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two tests in a given week. However, if you find that someone is sending you faxes in a continuous and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

Crashed plane may have had engine trouble

ABC 15

A preliminary report indicates a single-engine plane may have been experiencing engine trouble before it crashed May 17 at Mesa Falcon Field, killing the two people aboard.

The National Transportation Safety Board preliminary report says employees who were inspecting the plane's engine heard a loud "bang" after the plane took off and that it appeared the engine "could produce enough power."

Commercial pilot Joseph Jean-B. Gendrot, of Gilbert and 18-year-old mechanic student Andrew Reeder of Coolidge, Ariz., were killed in the crash of the Van's Aircraft in Arkansas, Ariz.-E.

The NTSB preliminary report says the plane crashed and burned, fatally killing after striking a 150-degree incline. Read more on engine problems here.

New Chandler fire chief is U.S Air force veteran

RALPH DURANTE TRIBUNE STAFF WRITER

Tom Dreppar has been selected as Chandler's new fire chief, replacing Jeff Clark, who retired in January.

Since January, Dreppar has been the interim fire chief, responsible for operations and administration of the department.

Dreppar was hired as a Firefighter for Chandler's Fire Health & Medical Department in 1998. He has held every promotion position for the department, starting as Assistant Fire Chief in 2014. He has led the emergency medical services, fire prevention, training, research and homeland security divisions.

Dreppar is a veteran of the U.S Air Force and served as a firefighter and crew chief during his military service.

$1 million Powerball ticket sold at Gilbert Safeway

ABC 15

The Arizona Lottery says a $1 million Powerball ticket was sold at a Safeway on Val Vista Drive and Elliot Road. The ticket was for the drawing on May 21.

So far, no winner has come forward to claim the prize.

This is the 35th Arizona Lottery player to win $1 million or more playing Powerball since 2010.

The numbers were 5-7-9-20-23. The Color did not match the red Powerball number, which was 26.

ASU gets praise from Obama during Vietnam trip

RALPH DURANTE TRIBUNE STAFF WRITER

President Barack Obama has mentioned Arizona State University as an example of a major American institution helping Vietnam modernize its economy.

American academic and technological leaders, including Intel, Boeing, Arizona State University and others, will help modernize universities from medicine to religion, technology, engineering and health."

Obama said during a working trip to Asia.

ASU's Higher Engineering Education Alliance Program, launched in 2011, is modernizing Vietnamese engineering programs by introducing hands-on, international approaches to engineering. Already more than 3,100 undergraduate students have graduated from the program.

Tempe-based Vist Tile names new leader

TRIBUNE STAFF

Steven Weinmark has been named Chief Strategy Officer for Vistana Tile Manufacturing, Otis Tool, a midwest waterjet foundation, was purchased and the expanded waterjet solutions company.

Weinmark, a Arizona State University graduate, has had many years of experience in leadership and strategic planning in the military. His military career spans both national and offshore duties on active duty and a reserve capacity. He is assigned to the First Marine Expeditionary Force.

The Tempe-based Vist Tile company employs over 2.7 million tiles in the tiling manufacturing.

Sex offender on probation arrested with child porn

ABC 15

A felon man on probation for sex assaults was arrested and accused of downloading several thousand videos and images containing child pornography.

Court records show that 35-year-old Nate Anderson, who is an "extreme predator" for sex crimes, was charged with a felony count of sexual exploitation of a minor and another felony count of possession of child pornography.

Anderson has been charged with 10 counts of sexual exploitation of a minor.

The Culture of Japan
Have you ever heard of Tanka?

Tanka is a traditional style of Japanese poetry, which is made up of 31 syllables (5-7-5-7-7). To use this style, poets must condense their feelings of love, yearning, admiration and longing for nature and life into subtle nuances and picturesque words. Because they must condense such strong feelings into such short simple forms, the selection of the appropriate Kanji or Hiragana (syllabify alphabet) has become an art from in itself. The more subtle or elegant the words the stronger and more vivid the readers' imagination.

Because of the nature of this style of poetry, and the close ties to the language and culture , Tanka has developed a simple elegant, classical style all its own.

People who read Tanka are free to let their imagination soar. The same Tanka may evoke different

A dial tone was not detected.

Please check the items below then rerun this test.

Other equipment sharing the fax line can reduce the signal strength.

Disconnect any equipment which is sharing the fax line (including extension phones, answering machines, and dial-up PC modems).
If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack.

If your HP device is connected to a Private Branch Exchange (PBX), other than the public telephone system, the Dial Tone Detection test may fail.

However, you should be able to successfully send and receive faxes.

Refer to your User Guide for more information on the fax test and settings.

Form **W-9**
(Rev. October 2007)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)

Business name, if different from above

Check appropriate box: ☐ Individual/Sole proprietor ☐ Corporation ☐ Partnership
☐ Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶
☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)

Requester's name and address (optional)

City, state, and ZIP code

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

or

Employer identification number
___ ___ - ___ ___ ___ ___ ___ ___ ___

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here Signature of U.S. person ▶ Date ▶

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to faxtest.com. It's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero.com, the site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring (hopefully it will automatically answer) and spit out the test fax.

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us Amen

Say for nine consecutive mornings for anything you may desire It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere.

Imprimatur

RE: Daniels Sharpsmart Invoices

Dear Valued Client,

We would like to thank you for choosing Daniels Sharpsmart Inc. for your Medical Waste needs. Over the years, we have been focused on providing products and services which reduce environmental impact, and have also developed recycling programs.

In our continuing efforts to provide environmentally friendly services, we have executed a paperless invoicing system. As such, there is a requirement to provide us with a billing email address that we can use in the future. If you choose not to provide an email address, we will implement an environmental impact fee of $4.00 per invoice. We will donate 50% of these fees to an environmental agency Environmental Defense Fund. They state on their website, "We work to preserve the natural systems on which all life depends, focusing on the most critical environmental problems." More information can be found on their website:

http://www.edf.org/

We fully support what Environmental Defense Fund does, and believe these donations will benefit the fund.

The environmental impact fee of $4.00 per invoice will go into effect February 28, 2014. If we do not receive a billing email address by February 28, we will assume you would like to continue receiving your invoices through the mail, and will be billed $4.00 per invoice. The following is contact information that you can use to send a billing email address to:

Control of the White House will come down to a handful of swing states. Here's a cheat sheet on what to watch for as the votes are cast

Two of these states (Florida, Pennsylvania, and Ohio) have gone Republican in every election since 1968. Bush won them all in 2000. Kerry can win by taking one plus Colorado and New Hampshire.

Electoral votes
Twelve swing states, with the country's 538 electoral votes, have been redistricted since the last election to reflect population changes, shifting some clashes out to Southern and Western states at the expense of the Rust Belt.
Three graphs by Michael Spencer and Joe Lertola text by Kevin Zwier
Maine
189

PENNSYLVANIA

Gore won in 2000, by 4.17%

Pennsylvania is really three states. Philadelphia is part of the liberal Northeast, Pittsburgh is Midwestern, and the center of the state is rural and conservative. Philly could be the key: Kerry needs to win by a big margin by turning out 35,000 newly registered voters. He will also try to win the Pittsburgh area. Bush will try to prevail in the Philly suburbs. He's even courting the Amish.

OHIO

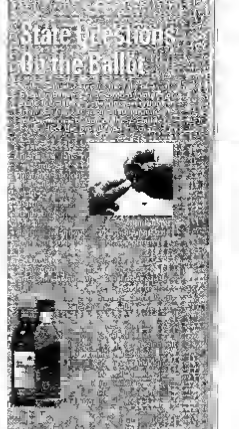
Bush won in 2000, by 3.51%

Al Gore gave up on Ohio in October 2000. Kerry's not as long-lucky. And with the state economy weak, Bush's approval rating sank to 43% in a recent poll. Both sides will try to win in Columbus, Akron and Canton. Kerry needs a big turnout in Cleveland and Toledo. Bush needs it in the northeastern Farm Belt and the Cincinnati suburbs. Legal fights are already erupting over election procedures.

FLORIDA

Bush won in 2000 by 0.0092%

People can't even agree who won the state last time. Democrats have already filed nine lawsuits in this year challenging election rules. Kerry needs a big turnout in Miami, Fort Lauderdale and Palm Beach. Bush needs big numbers in the Panhandle and the southern Gulf Coast. Both sides want to win the area stretching from Tampa to Orlando to Daytona Beach—the fastest-growing area in the state.



All four of these states lean conservative, but the Republicans are facing tougher fights than they expected. Still, the odds are in their favor to pick up enough new seats to retain any losses

SOUTH DAKOTA

Sen. Tom Daschle (D) vs. retired Rep. John R. Thune (R)

■ Does he stay? But as Democratic leader he is a powerful advocate for his party. Thune and Bush number Osama bin Laden as a powerful adversary for Tom Kennedy

ALASKA

Sen. Lisa Murkowski (R) vs. former Gov. Tony Knowles (D)

■ Murkies, a former city mayor, is popular. Murkowski has been hurting for her role in her predecessor—Governor Frank Murkowski, her dad, appointed her

COLORADO

Rep. Pete Coors (R) vs. state Rep. John Salazar (D)

■ Coors has a well-known name and brings his money to the race, but he's a political novice. Salazar is a moderate Hispanic from a rural part of the state

KENTUCKY

Sen. Jim Bunning (R) vs. state Sen. Daniel Mongiardo (D)

■ Running should have easily been re-election. But his odd behavior—skipping one debate and telling a Pennington during another—has given Mongiardo a shot

OKLAHOMA

Rep. Tom Coburn (R) vs. Rep. Brad Carson (D)

■ Carson is a conservative Democrat. Coburn, a former obstetrician, has dropped with controversy: a former patient says he sterilized her without consent. He denies that

Distinctive ring (DRPD)

Distinctive ring or distinctive ring pattern detection (DRPD) is a service offered by some telephone companies. When you subscribe to this service through your local phone company, you have different ring patterns, such as double ring and triple ring, that allow you to have different telephone numbers on one physical line. Your HP Fax works with different ring patterns.

Use Distinctive Ring to set your HP Fax to answer only if your phone numbers is a fax only line. The phone number (ring pattern) that you teach the HP Fax will be answered as if the machine is in FAX mode. All other numbers on the same line will be answered. If they are in AUTO mode (HP 1040 Fax) or TAM mode (HP 1050 Fax).

NOTE: HP 1050 Fax: If you use Distinctive Ring to establish one of your numbers as a fax only line you must turn the Answering Machine off or the HP Fax will not answer the phone on the other number's. If you do not want to use the answering machine, you can set up distinctive ring with your HP Fax.

If you have this service follow both of these instructions in this order to set it up and use it.

Step 1—Teach the HP Fax the ring pattern

The HP Fax will learn the ring pattern when you call from another telephone or fax machine.

1. Be ready to call the fax machine.
2. Press **Menu** repeatedly until ADVANCED FAX displays and press **Start/Enter**.
3. Use ◄ ► to scroll through the options until Distinctive Ring displays and press **Start/Enter**.

   Call this fax from another fax machine Waiting Ring will display.
4. Call the HP Fax.

Otherwise, all inbound and outbound calls will fail. If you don't see this option, you may need to call up Gmail and enable Google Chat there first. Then go back to the Google Voice settings.

While you're still in the Voice Settings, click on the *Calls* tab. Make sure your settings match these:

- Call forwarding: *On*
- Call screening: *Off*
- Call recording: *Press 4 to start recording*
- Play prompt for: *Only when receiving a call*
- Do not disturb: *Off*

Click Save Changes once you adjust your settings. Under the *Forwarding* tab, plug in your gmail address so that you get notified of new voicemails. Down the road, the call transport of a Google Voice voicemail will be a big hint that something has come unglued on your PBX.

Running The Incredible PBX Installer Log into your server as root and issue the following commands to download and run The Incredible PBX installer:

```
cd /root
wget http://incrediblepbx.com/incrediblepbx.tar
chmod +x incrediblepbx.tar
./incrediblepbx.tar
password-master
```

If you've installed the previous version of The Incredible PBX, you'll recall that there was a two-step install process after configuring an iDefTrunk with either SIPgate or IPhalli. That is now all a part of the past. All you need to do after *The Incredible PBX* script completes is run *password-master* to set up your master password for TrueIPBX.

When *The Incredible PBX* install begins, you'll be prompted for the following:

Google Voice Account Name
Google Voice Password
Google Voice 10 digit Phone Number
Gmail Notification Address
TrueIPBX master Password

The *Google Voice Account Name* is the Gmail address for your new dedicated account, e.g. jeffleitner@gmail.com. Don't forget the @gmail.com! The *Google Voice Password* is the password for this dedicated account. The *Google Voice Phone Number* is the 10-digit DID for this dedicated account. We need this if we ever need to go back to the return call methodology for outbound calling. For now, it's not necessary, but who knows what the future holds. The *Gmail Notification Address* is the email address where you wish to receive alerts when incoming and outgoing Google Voice calls are placed using The Incredible PBX. And *TrueIPBX master Password* is the password you'll use to access TrueIPBX. You'll actually set it by running *password-master* after *The Incredible PBX* completes. We need this password to properly configure the CallerID Superfecta for you. By the way, none of this confidential information ever leaves your machine – just in case you were wondering.

Now have another 5-minute cup of coffee, and consider a modest donation to Neal Vitale – for all of our hard work. ☺ You'll find a link at the top of the page. While you're waiting (and if you don't forget), go ahead and configure your hardware-based firewall to support Google Voice. See the next section for what's required. Without completing this firewall configuration step, no calls will work! When the

The Benefits of Magnesium

Research studies have shown that magnesium supplementation can help lower high blood pressure, lower the risk of developing diabetes, decrease the symptoms of PMS, reduce migraine symptoms, and help depression and anxiety. Magnesium has also been shown to help muscle cramps, as well as constipation, kidney stones, osteoporosis, insomnia, fibromyalgia and asthma.

Magnesium is needed for calcium to be used by bone. It is needed to help keep muscles relaxed, including those of the heart and blood vessels. It is needed in the function of vital co-factors and enzymes.

Diuretics (water-pills) can rob the body not only of potassium, but also of magnesium - yet little advice is given to supplement with magnesium. Magnesium is not as readily available in potassium in common foods, and is depleted by storing and processing. Sources of magnesium are whole grains, greens, nuts and seeds, however the soil itself is depleted of magnesium and these foods do not have as much magnesium now as they used to 50 years ago.

People who should not take magnesium are those with kidney failure, bowel obstruction, myasthenia gravis, or heart block.

In a situation of magnesium deficiency, it may take up to 6 months of oral supplementation to correct things.

There are several types of oral magnesium available, including magnesium citrate, magnesium chloride, magnesium lactate, magnesium taurate, magnesium aspartate, magnesium glycinate, and magnesium oxide.

Magnesium Citrate is probably the most cost effective (400 to 900 mg at bedtime as a good dose, or 200 to 300 mg two to three times a day). If diarrhea is a problem, try back on the dose or switch to magnesium glycinate or aspartate. Magnesium oxide is poorly absorbed, and hence likely to cause diarrhea. We do not recommend magnesium oxide.

If one is going for maximum absorption, it is best to use smaller divided doses throughout the day than one big dose once a day.

If oral magnesium is giving you diarrhea and you still need more magnesium, you can try oil of magnesium, which is magnesium chloride rubbed onto the skin. Or you can soak your feet in an Epsom salt (magnesium sulfate) bath.

Type A personalities and people under stress will tend to need more magnesium.

Because it helps with constipation, magnesium can also be used as a laxative. Magnesium as a laxative is sold as a liquid in bottle of magnesium citrate. The difference between magnesium as a supplement and magnesium as a laxative is the dose.

[How to setup the clients and server to deploy your image]

*On the CLIENT your BIOS settings for the NIC must be set to PXE boot *(On the 760s & 780s these settings):

Boot Sequence → UNCHECK OnBoard Network Controller (So it will not auto boot)

System Configuration → Integrated NIC (Enable with PXE) (This is most important!)

Power Management → CHECK Low Power Mode (So you can use Wake on LAN)

Power Management → Remote Wake Up (Enable w/ boot to NIC)
(So you can use Wake on LAN)

* If your 780's do not work, try flashing the BIOS to A03 (Yes downgrade)*
* If you make a mistake in the following setup REBOOT and start over*

1. Have USB plugged into the DHCP server and verify the lab **NOT** isolated from your campus domain controller - Lab01 needs to obtain DHCP leasing info.
2. Follow "Boot Up Instructions"
3. Double-click "Clonezilla Server" icon

4. Select DHCP (Press Enter)

Some Economic News

Factory Orders: The Commerce Department reported that the value of new factory orders fell by 0.3% in April, exactly as expected as nondurable goods orders rose 0.4% to offset a downward revised 0.8% decline in durable goods orders.

Jobless Claims: The Labor Department reports that initial claims for U.S. state unemployment benefits fell by 18,000 to 245,000 in the June 3 holiday week slightly ahead of the 240,000 level analysts expected and following a larger-than-normal upward revision to 263,000 in the prev ious week.

Wholesale Inventories: The Commerce Department reports the value of wholesale inventories fell 0.5% in April while wholesale sales were -0.4%. The wholesale sales reading of -0.4% comes on top of a flat reading for factory shipments.

Productivity: The Labor Department reports that 1Q17 (1st quarter of 2017) nonfarm productivity was revised modestly higher to a flat reading from a 0.6% decline previously reported while unit labor costs were revised down to a 2.2% pace of growth from the 3.0% rate in the preliminary estimate.

Send "Joy" Ringtone to your Cell

"Joy"

Can't forget the day
That you walked into my life
It was just the kind of thing
That was so right on time
After all the love changes
My heart had locked the door
Then that girl released her magic
And made me love once more. Ooh

Like the warm rays of the sun
Her sweet love came shining down on me. oh
All at once turned my life around
And with one kiss, she set me free

[1] She's given me joy, joy, joy
That girl, she brings me joy
She's given me joy, joy, joy
That girl...she brings me joy

Goodbye, all tears
And as long as my heart beats
Now that joy has taken over
And she's here to stay

Her love lifts me up
Like no other love before
With every beat of my heart
I'm bold, bursting on, hey

Just look what she's done to me
She's erased all the sadness away. oh
I can never repay the debt
Cuz she's given me me more and more

[1] She's given me joy, joy, joy
That girl, she brings me joy
She's given me joy, joy, joy
She brings me joy

She's given me

Check one, check two
Can't hold back, I'm in love with you
Check one, check two
There's nothing in the world that I won't do for you

Check one check two
Can't hold back, I'm in love with you
Check one check two
There's nothing in the world that I won't do for you

That girl
She's given me joy, joy, joy
I love the way she loves me
She brings me joy

Marsha's Terrible Job Interview

Marsha had a job interview with the Sunshine Biscuit Company last Monday. Her appointment with the interviewer was for 10:00 am. She had forgotten to set her alarm clock, so she woke up at 9:30 am and got to the interview an hour late, at 11:00 am.

Because she woke up so late, she didn't have much time to get ready. She took a quick shower and put on the first dress that she found in her closet. It was a very short dress that showed a little too much, the kind of dress a woman wears when she's trying to attract a boyfriend at a cocktail party. She also put on a lot of very cheap perfume, the kind you can smell down the street.

She left the house without eating breakfast and she ran to the bus stop. The bus was late in coming, but she didn't want to spend the money on a taxi. When she finally got to the Sunshine Biscuit company, she ran into the building and ran into the interviewing office. She ran up to the secretary's desk and screamed, "I'm here! My bus was late!" The secretary was a bit surprised, but asked her who she was and what time her appointment was for. Marsha answered, "I'm Marsha and my interview is for right now." Of course, it was already 11:00 am and her interview had been scheduled for an hour earlier.

The secretary called the interviewer, Mr. Green, on the intercom and he told her to send Marsha in.

Marsha was chewing gum as she entered the office. She took a seat without saying anything to Mr. Green. Mr. Green was slightly surprised to see Marsha act so boldly, even though she was an hour late. He introduced himself and asked how she was. She said that she was feeling lousy and that the public transportation in the town was awful. He asked her what kind of position she was looking for, and if she had a resume. She said that she had no resume because she didn't have time to write one. She also had no idea of what kind of job she wanted, she just wanted one that paid well. He asked her if she had any questions for him, and she asked him if she could have Wednesday afternoons off so that she could see her psychiatrist. She also asked him if the company gave at least a two-week vacation. He asked her what skills she had and she answered that she could type, but that she couldn't take a typing test because tests made her nervous.

Mr. Green thanked Marsha for coming, and she asked, "Do I get a job or not?" He said that he would call her if there was an opening, and she said, "Well, hurry please, because I'm broke and I can't pay the rent."

Step 3 Make a Test Call Using OBiTALK

At any time, you may place a test call to the OBi Number below

OBiTALK Test No

Dial ****9 followed by** **222 222 222**

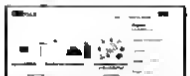
Your OBi is ready to make FREE calls to other OBi endpoints using the **OBiTALK** network. On the bottom of your unit, you will see a 9-digit OBi Number. This is **your** OBi Number. Give this number to your friends, family and colleagues so they can call you from their OBi device or using the OBiOn iPhone and Android apps for smart phones.

To use the **OBiTALK** network, all you have to do is install your OBi, pick up the phone and then call your friends by dialing ****** and **their** nine-digit OBi Number

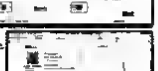
Step 4 Set-Up an OBiTALK Account Then Add Your OBi to the Account

Go to **www.obitalk.com**

Register for an OBiTALK account. This will allow you to easily activate devices and add any commercial VoIP services used with your OBi



The first time you log-in to OBiTALK, a pop-up window will appear allowing you to add your device.



Click "Yes" to add Your OBi Device to the OBiTALK Dashboard. After adding your device you will be able to set-up voice services and other configuration information. Multiple devices may be added to a single account.

Follow the on-screen instructions to add your OBi device to your OBiTALK account.

Once added, you will be directed to the Device Configuration page.

- Set your OBi display name, time zone, and daylight savings values.
- Select the "Save Changes" button.

Step 5 Set-Up VoIP Services

After you register and add your OBi device at www.obitalk.com the OBi Device Configuration page will help you set-up commercial VoIP services such as the **Google Voice™** communication service.

Do this by selecting the **Google Voice Set-Up** button. You may also select from any one of the other listed service providers. If your service is not there, you may use the Generic Service Provider option.

Generally all you will need to set-up a service is the User Name and Password for the service.

1.2 Frugal install

Frugal is the typical installation method for Tiny Core. There is a most traditional hard drive installation where all the files are stored on the hard drive. Because all the files of the system are stored all about the disk. With frugal, you basically have the system in two files: vmlinuz and initrd.gz, which location is specified by the boot loader.

Any user files and extensions are stored outside the boot OS.

Method 2. Reinstall Windows Without Losing Any Deta

If you are still able to get to your desktop, you've got additional options. You can still use the command prompt to do as in the previous method, but there's another way that may be more thorough: reinstall Windows.

Wait, didn't we say you wouldn't have to reformat? We did—and you don't. It's possible to do an in-place, nondestructive reinstall of Windows, which will restore all your system files to pristine condition without damaging any of your personal data or installed programs. All you'll need is a Windows install DVD and your Windows CD key. Hopefully you still have your key written down somewhere, but if you didn't, you're not out of luck. You can use a program like ProduKey (available for free) to quickly recover your Windows product key from the registry.

Important: Before embarking on this process, note that it can cause problems with your installed programs, so don't use it just for fun, and make sure to back up your important data and create a restore point before continuing.

Step 1: Do Some Prep Work

Before you can get started, there's one important consideration. You can't repair a Windows 7 SP1 install with a pre-SP1 install disc. The ideal solution is to borrow a newer, retail disc with SP1 included (or download it if you have access to a TechNet account), but it's also possible to uninstall SP1. To do this, open the Control Panel, select Uninstall a Program, and then choose the option to view updates (image below). You can right-click the Service Pack update to uninstall it.

Step 2: Insert the Install Disc

We'll be once again using the Windows install disc, but this time we're not going to boot from it. Simply insert the disc, and when the autorun menu pops up, choose to run setup.exe. Once again, you'll find yourself staring at the Windows 7 install screen. This time, click the Install now button (image below).

Mr Hansen

Thanks you for c... andcepany in your new divisional headq...ts. We ... month for the concept phase as agreed earlier

Since your available area is ... limited we suggest a modular layout. This concept emphasizes space conservation and yet still provides for a modern, pleasing atmosphere

Enclosed are two floor plans. The first one will allow you to keep your present furniture. The second was designed with the intention that our new space-saving modules be used. Note that the latter will provide for more spacious accommodations and/or room for additional personnel. Also included are the specification sheets on these products.

After you have had a chance to study our ideas I would like to set up a meeting during October to discuss any further refinements. I will have my secretary make the arrangements. Please call me in the interim if you have any questions

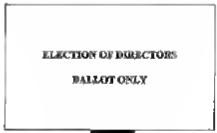
Please Note...

PLEASE FOLLOW INSTRUCTIONS CAREFULLY WHEN RETURNING ELECTION BALLOT

1 Election ballot ONLY is placed into small envelope
Marked "ELECTION OF DIRECTORS
BALLOT ONLY"



2. "BALLOT" envelope ONLY is placed into envelope
Stamped NAME_____
UNIT_____
SIGNATURE_____

3 The sealed envelope from #2 above is placed into the envelope shown at the right. If sending a proxy, please place it in the envelope shown to the right along with sealed envelope #2 above.

4. Touch **On (Print and Forward)** to print and forward the fax, or select **On (Forward)** to forward the fax.

   NOTE If the printer is not able to forward the fax to the designated fax machine (for example, if it is not turned on), the printer prints the fax. If you set up the printer to print error reports for received faxes, it also prints an error report.

5. At the prompt, enter the number of the fax machine intended to receive the forwarded faxes, and then touch **Done**. Enter the required information for each of the following prompts: start date, start time, end date, and end time.
6. Fax forwarding is activated. Touch **OK** to confirm.
   If the printer loses power when fax forwarding is set up, it saves the fax forwarding setting and phone number. When the power is restored to the printer, the fax forwarding setting is still **On**.

   NOTE You can cancel fax forwarding by selecting **Off** from the **Fax Forwarding** menu.

Set the paper size for received faxes

You can select the paper size for received faxes. The paper size you select should match what is loaded in your main tray. Faxes can be printed on Letter, A4, or Legal paper only.

NOTE If an incorrect paper size is loaded in the main tray when you receive a fax, the fax does not print and an error message appears on the display. Load Letter, A4, or Legal paper, and then touch **OK** to print the fax.

To set the paper size for received faxes from the printer control panel

1. Touch ▶ (right arrow), and then select **Setup**.
2. Touch **Fax Setup**, and then select **Basic Fax Setup**.
3. Touch **Fax Paper Size**, and then select an option.

Set automatic reduction for incoming faxes

The **Automatic Reduction** setting determines what the printer does if it receives a fax that is too large for the default paper size. This setting is turned on by default, so the image of the incoming fax is reduced to fit on one page, if possible. If this feature is turned off, information that does not fit on the first page is printed on a second page. **Automatic Reduction** is useful when you receive a Legal-size fax and Letter-size paper is loaded in the main tray.

To set automatic reduction from the printer control panel

1. Touch ▶ (right arrow), and then select **Setup**.
2. Touch **Fax Setup**, and then select **Advanced Fax Setup**.
3. Touch **Automatic Reduction**, and then select **On** or **Off**.

Block unwanted fax numbers

If you subscribe to a caller ID service through your phone provider, you can block specific fax numbers so the printer does not print faxes received from those numbers.

answers to your questions about faxing

« How can I make calls from a fax machine?
How do I send the same fax to many people? »

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it out to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-346-1239 (a toll free number in the United States). When it's finished transmitting, point your web browser to fax.com — it's a fun web site that displays whatever is faxed to that number. Wait a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to Fax.com (the site you used faxes to/from to anywhere in the United States and Canada). Within a few minutes, your fax machine should ring. Hopefully, it will answer and spit out the test fax.

Bill Katon was a black fiddler born around 1865 who lived in Missouri. This melody is a blend of what I learned from Alabama fiddler James Bryan and from Missouri fiddler Charlie Walden. **Charlie uses an F in measures 11 and 15 rather than the E shown above. This printer is now ready for printing.

After this, Quick Menu opens automatically

Quick Menu is a shortcut menu that lets you access functions you want to use with one click. You can access CREATIVE PARK PREMIUM, the Online Manual, etc.

* The screen display varies depending on your printer

CREATIVE PARK PREMIUM

You can download popular characters or artwork of famous artists and print them
CREATIVE PARK PREMIUM is a premium content service available exclusively to customers who use genuine Canon ink for all colors.

Online Manual

The Online Manual is an instruction manual on the website. It contains the latest information needed for operations such as printing. You can also use it for troubleshooting when problems arise

* An internet connection is necessary

We Recommend Using Canon Genuine Inks

Canon genuine consumables (inks / printing paper) are developed especially for Canon ink-jet printers. We recommend using Canon genuine consumables to maintain printer performance and ensure consistency

Note: Add all chemicals directly to pool with pump and filter running. Do not add through skimmer unless specifically instructed. Read and follow all label directions for safe handling of chemicals. Never mix chemicals. After addition of chemicals, always run the pump and filter at least 8-12 hours.

Water Balance Recommendation(s)

- Refer to your salt chlorinator manufacturer's recommendations for proper treatment of metals. Some metal removal products may not be compatible with salt chlorinators
- Refer to your chlorine generator manufacturer's guidelines or professional pool dealer and follow their recommendations to properly maintain the salt level in the pool.
- pH is high - add 7 fl oz(s) of pooLife pH M nus or 96 fl oz of 31 45% Muriatic acid If using Muriatic acid It should be added to the pool with the pump running After fully circulating pool water recheck the total alkalinity and pH and adjust if necessary
  - Due to the amount of decrease in pH required, it is recommended that additions be made daily in increments of 6 lb(s) to prevent damage to pool surfaces Remember to retest the water balance no less than 6 hours after each addition
- Calcium Hardness is low - add 31 lb(s) of POOLIFE Calcium Plus
  - Due to the amount of increase in Calcium Hardness required, it is recommended that additions be made in increments of 10 375 lb(s) allowing for at least 6 hours between additions. Remember to retest the Calcium Hardness after each addition.
- Some automatic salt chlorine generator systems run high on TDS due to addition of sodium chloride (SaX) to the pool Follow the manufacturer's recommendation
- Cyanuric Acid is low - add 5 lb(s) of POOLIFE Stabilizer and Conditioner to achieve [redacted]

Activating a default model with a character display
Procedure 63
Activating a default model telephone with a character display
Step Action
1 Plug the telephone set into the jack and wait 20 seconds before picking up the handset. If you do not receive a dial tone, replace the handset and wait another 10 seconds before going off-hook again. Repeat this procedure until dial tone is received.
If successful, the character display shows either "MODEL? X" (if the telephone relocation feature is not in use) or "RELOC OR MODEL? X" (if the telephone relocation feature is in use). "X" represents the default model for the telephone that you are activating.
Note 1 If you do not see the prompt "MODEL X" after lifting the handset, disconnect the telephone from the wall jack, wait five seconds, and reinsert the telephone into the jack. The telephone now shows "MODEL X" when you lift the handset.
Note 2 The 20 second time interval is required for the system to determine whether the set is new or if it is being relocated using the Modular Telephone Relocation feature.
2 Press the pound key (#) to select the default model.
The character display shows "OK EXTENSION? XXXX" "XXXX" represents the default extension number for this telephone type.
3 Press the pound key again to select the default extension number.
You hear the relocation tone. The character display shows "OK".
OR
If the extension number is already in use by another telephone, you hear the special dial tone. If the telephone has a display it shows "MULTI LINE EXTENSION?"
To accept the default extension number press the pound key.
To select a new extension number, manually enter an extension number and press the pound key.
OR
If the extension number is not available for use, the character display shows "ERROR EXTENSION?" and you hear overflow tone.
This happens when you choose an extension number manually or when extension numbers are entered for additional keys. A default extension number will not be offered if it is not available.
You must repeat step 3 and manually enter a new extension number.
Note 1 If other keys require secondary extension numbers, you are prompted until you enter all of the required extension numbers for the model.
Note 2 These extension numbers cannot be defaulted. The text display prompting for further extension numbers is "KEY kk EXT?" where "kk" represents the key number requiring the extension number.
Note 3 Each prompt for another extension number is accompanied by special dial tone. When you are programming an extension number, the lamp associated with that number on the telephone is lit.
4 Hang up the telephone receiver.
After approximately 10 seconds, the telephone is configured.

TalkTalk Calling Features

Voicemail

Voicemail is an opt-in service. When you pick up the phone you will hear an interrupted or 'stuttered' dial tone alert if you have a new message.

To retrieve a message, dial: **1571**

Voicemail Plus

Your phone will ring when you have a new message.

To access Voicemail Plus from your phone, dial: **1571**
To change your personal options, press **2**. These include:

- Recording your personal greeting message
- Changing your PIN number
- Listening to details of caller who left no message

To access Voicemail Plus from another phone, dial your own number. When you hear your greeting, press ***** then enter your PIN. This will bring you to the main menu.

If we have upgraded you to the TalkTalk network, your PIN will be default to 1234. You will need to change your PIN number of your own from your homeline before you can remotely access your network.

Call Divert

Call Divert is an opt-in service.

To switch on the divert facility, dial: * [Code Number] * [Number to Divert To] #
To switch off the divert facility, dial: # [Code Number] #
To check the divert service's status, dial: * # [Code Number] #

Please note that you will be responsible for the cost of the diverted call from your landline to your chosen destination.

Code Numbers

To divert all calls, dial: 21
To divert unanswered calls after 21 seconds, dial: **61**
To divert calls when the line is engaged, dial: 67

You will be billed for the cost of the diverted call.

Last Caller – 1471

To get the phone number, time and date of the last person to call you, dial: 1471
This will bring you to the main menu.
To return the call, press **3**.

Form **W-9**
(Rev. October 2007)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

Name (as shown on your income tax return)

Business name, if different from above

Check appropriate box: ☐ Individual/Sole proprietor ☐ Corporation ☐ Partnership
☐ Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶
☐ Other (see instructions) ▶

☐ Exempt payee

Address (number, street, and apt. or suite no.)

Requester's name and address (optional)

City, state, and ZIP code

List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
___ ___ ___ - ___ ___ - ___ ___ ___ ___

or

Employer identification number
___ ___ - ___ ___ ___ ___ ___ ___ ___

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here Signature of U.S. person ▶ Date ▶

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-4655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to FaxToys — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts formatting colours and graphics of any source document regardless of the application and platform used to create it

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing

- ***Anyone anywhere*** can open a PDF file All you need is the free Adobe Acrobat Reader Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device
- PDF files always display ***exactly*** as created regardless of fonts. software and operating systems Fonts and graphics are not lost due to platform software and version incompatibilities
- The free Acrobat Reader is easy to download and can be freely distributed by anyone
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web

Key Lime Cake

Recipe adapted from Home Cooking with Trisha Yearwood (c) Clarkson Potter 2010

Prep Time:	20 min	**Level:**	**Serves**
Inactive Prep Time:	15 min	Easy	12 servings
Cook Time:	40 min		

Ingredients

Cake

Butter for greasing pan

Flour for dusting pan

One 3-ounce package lime flavored gelatin

1 1/3 cups granulated sugar

2 cups sifted all-purpose flour

1/2 teaspoon salt

1 teaspoon baking powder

1 teaspoon baking soda

1 1/2 cups vegetable oil

3/4 cup orange juice

1 tablespoon lemon juice

1/2 teaspoon vanilla extract

5 large eggs slightly beaten

Glaze

1/2 cup key lime juice (from about 25 small key limes or 4 large regular limes)

1/2 cup confectioners' sugar

Icing

1/2 cup (1 stick butter) room temperature

One 8-ounce package cream cheese room temperature

One 1 pound box confectioners' sugar

Directions

For the cake Preheat the oven to 350 degrees F and grease and flour one 9-by 12-by-2-inch cake pan.

In a large mixing bowl mix the gelatin, granulated sugar flour salt, baking powder and baking soda Stir to mix well Add the oil orange juice lemon juice vanilla and eggs. Mix until well combined Pour the batter evenly in the pan and bake for 35 to 40 minutes. Test for doneness by lightly touching the tops or inserting a toothpick. Cool the cake in the pan for 5 minutes then turn out onto a cooling rack

For the glaze While the cake is still hot, mix the lime juice and confectioners' sugar together well. Pierce the cake with a fork to allow the glaze to soak in better and pour it over the cake as the cooling rack. Allow cake to cool completely as you prepare the icing

Assumption of Risk, Waiver, Release of Liability and Hold Harmless

Office at Southport

I have requested a hard hat tour of the Office at Southport, located at 1111 Lake Washington Blvd N an affiliate of Office at Southport, LLC, and General Contractor, Excel Pacific, Inc ("EPI")

I ("Visitor") understand that the Project is still under construction and there are inherent risks and hazards associated with entry into any area under construction, including the Project. In consideration of Office at Southport, LLC and EPI allowing Visitor to enter the Project, Visitor for itself and all others claiming by, under and through Visitor, assumes all risk of entering the Project.

Also in consideration of Office at Southport LLC and EPI allowing Visitor to enter the Project, **Visitor hereby forever releases and waives any claims, demands or causes of action against Office at Southport, LLC, EPI, their agents, subcontractors, suppliers, officers, employees, and consultants for all damages of any kind whatsoever, specifically including but not limited to bodily injury and property damages, however caused and arising or in any way related to Visitor's entry onto, or presence on, the Project.**

Visitor further agrees to defend (with counsel of Office at Southport, LLC's choice), indemnify and hold harmless Office at Southport, LLC, EPI, its agents, subcontractors, suppliers, officers, employees, and consultants from any and all claims, demands or causes of action arising out of or in any way related to the Visitor's entry onto, or presence on, the Project.

Visitor is required to wear proper footwear (no open toed shoes or "tennis" shoes). A hard hat, safety vest and safety glasses are also required to be worn on the site at all times. No one is allowed to tour the Project if not accompanied by an Office at Southport LLC or EPI representative. Please be aware that the tour may require walking up multiple flights of stairs if the elevators are not yet operational.

I have read fully understand and expressly agree to the terms of this Assumption of Risk, Waiver Release of Liability and Hold Harmless.

Selected FAQ

Q: How do I add my printer to an IP printer on my Mac?

A: Do the following:

1. Open the Apple menu and select **System Preferences** > **Print & Fax**, **Print & Scan**, or **Printers & Scanners**.
2. Click the + icon under the printer list. Select a printer. If you do not know which printer to choose, select Epson Less Printer then click **OK**.
3. Click in the **Address** field and enter your printer's IP address. If your Mac establishes the connection, you see the message **Gathering printer information**.
4. Click **Add** after your printer appears in the **Use:** field. This creates your printer queue. If your printer does not appear in the **Use:** field, select **Auto Select** from the dropdown list.

THE SLEEVEX COMPANY LIMITED

SAPONA LANE WOOLS DORSET BH25 6EA
TELEPHONE BOURNEMOUTH (0425) 51427 TELEX 123456

Our Ref. 350/RJC/PAC 18th January 1972

Mr. W.H. Cundell,
Group Research Ltd.,
Holroyd Road,
Reading,
Berks.

Dear Mike,

Permit me to introduce you to the facility of facsimile transmission.

In facsimile a photocell is caused to perform a raster scan over the subject copy. The variations of print density on the document cause the photocell to generate an analogue electrical video signal. This signal can be modulated on an RF carrier which is transmitted to a remote destination over a radio or cable communications link.

At the remote end, demodulation recovers the video signal, which is used to modulate the density of print produced by a printing device. This device is scanning in a raster scan synchronised with that at the transmitting terminal so as a result, a facsimile copy of the subject document is produced.

Probably you have seen the term facsimile in your communications

Yours sincerely,

Phil.

Documents Stack

Welcome to Mac OS X Snow Leopard

The Dock in Snow Leopard includes Stacks, which you can use to quickly access frequently used files and applications right from the Dock.

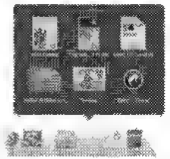
Stacks are simple to create. Just drag any folder to the right side of the Dock and it becomes a stack. Click a stack and it springs from the Dock in either a fan or a grid. To open a file in a stack, click the file once.

Mac OS X Snow Leopard includes three premade stacks called Documents, Downloads, and Applications. You opened this file from the Documents stack. The Documents stack is a great place to keep things like presentations, spreadsheets, and word processing files. You can drag files to the stack or save them to the stack from an application.

Documents Downloads Applications

Stacks automatically display their contents in a fan or a grid based on the number of items in the stack. You can also view the stack as a list. If you prefer one style over the other, you can set the stack to always open in that style.

Stacks intelligently show the most relevant items first or you can set the sort order so that the items you care about most always appear at the top of the stack. To customize a stack, position the pointer over the stack icon and hold down the mouse button until a menu appears. Choose the settings you want from the menu.



To remove a file from a stack, just open the stack and drag the item out to where you want it. To delete a file, move it to the Trash. In fact, when you're done reading this document, feel free to throw it out.

BuzzVOIP Letter of Authorization
Last updated 5/22/2012

Thank you for selecting BuzzVOIP. Number Portability allows you to keep your current number while changing your service provider. Upon receipt of this form, we will start the transfer process and work with your existing carrier to transfer your number. The porting process typically takes up to 20 business days.

1) If you have distinctive ring, a PIC freeze, or a carrier change restriction, you must remove it prior to porting your number. If you make changes to features or services with your existing provider, it could delay or interrupt the porting process.

2) If you have a contract with your current provider that prohibits porting, you cannot port your number.

3) The service address and name on this form must be the same as the records of your current provider or your transfer request will be rejected.

4) Do NOT call your existing carrier to cancel service while we are attempting the transfer, or you will not be able to keep your telephone number. (To ensure that your account has been cancelled, contact the carrier five business days after the transfer completes.)

5) BuzzVOIP will need a copy of a phone bill, or account summary page, dated within 30 days of today, that includes the number to be transferred and the account holder's name.

First and Last Name: _____

Number to be Transferred: _____

Current Provider: _____

Your Address As It Appears on Current Service Provider's Invoice:
_____
_____
_____

You are required to submit this form as verification that you would like BuzzVOIP to provide telephone service for the number you listed. With traditional telephone service, you can select different carriers for different types of service. In order to use BuzzVOIP, you will need to check ALL three boxes below to authorize us to provide you with all three services for the phone number in question.

[ ] Yes, I select BuzzVOIP as the carrier for ALL local calls for this number.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably you went to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Why does a God-given, inerrant Bible contain contradictions?

FAITH Q&A
The Kansas City Star

The Rev. Paul Rock, Second Presbyterian Church, Kansas City, Mo.

In the 10th chapter of Luke, an expert in the law asked Jesus how to inherit eternal life.

Jesus answered Jesus asked some questions of his own. What is your reading of the law? Jesus replied. Then how do you read it? The questions presented by this section also beg a question of how.

First, what is inferred by "God-given"? If an inerrant God wrote it, all of it, then any perceived problem in that writing, then any perceived contradiction would present serious questions.

I believe rather that God in his own unique way inspired certain men to write certain words. Through these writings God speaks to us through time and eternity. The Bible is and continues to be a source of truth for many people, including me.

The Bible is a compilation of 66 unique documents of the Christian canon, by three dozen writers of different genres and different contexts. Over the centuries, the church has recognized these writings as true, authentic, trustworthy and holy.

But can a holy book contain contradictions? Absolutely. Holy doesn't mean perfect. It means set apart for special use by God. We may perceive contradictions in the Bible as we read it, but a humble faith and humility of heart will help us see that God's Word is not contradictory. Rather, it is full of truth and wisdom that can be found only through careful study and prayer.

Jesus' response to the expert in the law is a case in point. Jesus asked what was written in the law. The expert answered correctly, quoting Deuteronomy and Leviticus. Jesus told him that he had answered correctly. Then the expert asked who his neighbor was. Jesus told the parable of the Good Samaritan, which is a beautiful illustration of God's grace and will, even through imperfect vessels.

That's how I read it.

Skip this step if any of these items is true:

You have enabled the bgp bestpath compare-routerid command.

Note: Cisco IOS Software Releases 12.0.11S, 12.0.11SC, 12.0.11S3, 12.1.3, 12.1.3AA, 12.1.3T, and 12.1.5T introduced this command.

The router ID of this same for multiple paths because the routes were received from the same router.

- There is no current best path.

The current best path can be lost when, for example, the neighbor that offers the path goes down.

11. Prefer the route that comes from the BGP router with the lowest router ID.

The router ID is the highest IP address on the router, with preference given to loopback addresses. Also, you can use the bgp router-id command to manually set the router ID.

Note: If a path contains route reflector (RR) attributes, the originator ID is substituted for the router ID in the path selection process.

12. If the originator or router ID is the same for multiple paths, prefer the path with the minimum cluster list length.

This is only present in BGP RR cluster configurations. It allows clients to peer with RRs in the same cluster. In this scenario, the client must be aware of the RR-specific BGP attribute.

13. Prefer the path that comes from the lowest neighbor address.

This address is the IP address that is used in the BGP neighbor configuration. The address corresponds to the remote peer that is used in the TCP connection with the local router.

A Cyberattack in Saudi Arabia Had a Deadly Goal. Experts Fear Another Try.

By NICOLE PERLROTH and CLIFFORD KRAUSS MARCH 15, 2018

In August, a petrochemical company with a plant in Saudi Arabia was hit by a new kind of cyberassault. The attack was not designed to simply destroy data or shut down the plant, investigators believe. It was meant to sabotage the firm's operations and trigger an explosion.

The attack was a dangerous escalation in international hacking, as faceless enemies demonstrated both the drive and the ability to inflict serious physical damage. And United States government officials, their allies and cybersecurity researchers worry that the culprits could replicate it in other countries, since thousands of industrial plants all over the world rely on the same American-engineered computer systems that were compromised.

Investigators have been tight-lipped about the August attack. They still won't identify the company or the country where it is based and have not identified the culprits.

But the attackers were sophisticated and had plenty of time and resources, an indication that they were most likely supported by a government, according to more than a dozen people, including cybersecurity experts who have looked into the attack

WONDERWORD

By DAVID OUELLET

HOW TO PLAY: First, read the list of words, then look at the puzzle. The words are found in all directions — vertically, horizontally, diagonally, backward. Circle each letter of a word found and strike it off the list. The letters are often used more than once so do not cross them out. It is best to find the big words first. When you find all the words listed in the clues you'll have a number of letters left over that spell out the WONDERWORD. To see the answer use the link below the puzzle.

Q. What should I know about an FHA refinance?

A. FHA refinance loans are available for rate and term refinancing or cash out refinancing. In addition, you may refinance a conventional loan to an FHA loan. For qualifying homeowners, FHA loans generally have several advantages, including:

- Equity requirement is 2.25% (rate and term refinances only)
- May qualify for a loan two years after the date of discharge of a bankruptcy (Chapter 7)
- May qualify for a loan three years after the date of a foreclosure[1]

[illegible]

Q. What eligibility requirements are there?

A. To be eligible for an FHA refinance with Discover Home Loans:

- Loan must be secured by a one- or two-unit property, occupied as your primary residence
- Your monthly housing costs (mortgage principal and interest, property taxes and insurance) should generally not exceed 31% of your gross monthly income
- Your monthly housing costs plus all additional monthly debt should generally not exceed 43% of your gross monthly income
- Your loan amount must not exceed your county limits as determined by the FHA. Contact one of our Dedicated Mortgage Bankers to determine what county loan limits are applicable to your specific situation
- You do not need to be a U.S. citizen, though additional requirements apply to non-citizens.
- If applicable, you have been discharged from a Chapter 7 bankruptcy for two years or more or, if you are in a Chapter 13 bankruptcy, you have made all court-approved payments on time and as agreed for at least one year. Additional requirements apply. Contact one of our Dedicated Mortgage Bankers about your specific situation

Q. When is refinancing a good idea?

A. If you can reduce your current interest rate, you'll cut your monthly payments and may reduce the amount of interest you pay over the life of your loan depending on the term of your new loan. Moving from a 30-year term to a shorter term mortgage can help you pay off your loan sooner, while switching from an adjustable rate to a fixed rate mortgage will stabilize your payments. Or, if you need money to pay down high-interest bills or make major purchases, a cash-out refinance can help you do that.

Please call one of our **Dedicated *Mortgage* Bankers** at **1-800-270-5891** with questions or for more information.

FACTS	WHAT DOES CITIBANK DO WITH YOUR PERSONAL INFORMATION?
Why?	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
What?	The types of personal information we collect and share depend on the product or service you have with us. This information can include: – Social Security number and income – account balances and employment information – credit history and transaction history
How?	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Citibank chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does Citibank share?	Can you limit this sharing?
For our everyday business purposes — such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes — to offer our products and services to you	Yes	No
For joint marketing with other financial companies	Yes	No
For our affiliates' everyday business purposes — information about your transactions and experiences	Yes	No
For our affiliates' everyday business purposes — information about your creditworthiness	Yes	Yes
For our affiliates to market to you	Yes	Yes
For our nonaffiliates to market to you	Yes	Yes

To limit our sharing	Call 1-877-491-0609 – our menu will prompt you through your choice(s) (TTY: 1-866-367-2484) **Please note:** If you are a *new* customer, we can begin sharing your information 30 days from the date we sent this notice. When you are *no longer* our customer, we continue to share your information as described in this notice. However, you can contact us any time to limit our sharing.
Questions?	Call 1-877-491-0609 or call the Customer Service number on the back of your credit card or on your billing statement. (TTY: 1-866-367-2484)

HAWAIIAN-STYLE FRUIT SALAD • *Healthy Meals in Minutes*™

SERVES 4

½ cantaloupe or honeydew melon, seeded

1 fresh pineapple, cored and cut into small chunks, shell reserved or 1 can (20 ounces) pineapple chunks packed in juice, drained

½ cup seedless green grapes, halved

FOR THE SAUCE

½ cup nonfat plain yogurt

2 tablespoons granulated sugar

4 teaspoons fresh lime juice

½ teaspoon ground cardamom

1 To prepare sauce, in a medium bowl combine yogurt, sugar, lime juice, and cardamom. Mix well.

2 Using a melon baller, scoop flesh from cantaloupe into balls.

3 In a large bowl, or using the reserved pineapple shell as a bowl, combine cantaloupe, pineapple, and grapes. Serve immediately with sauce, or cover with plastic wrap and refrigerate until ready to serve.

VARIATION

Instead of a fruit salad, try mini fruit kebabs. Place sauce in a bowl in the center of a serving platter. On a skewer alternately thread a melon ball, a pineapple cube, and a whole grape. Repeat with remaining fruit. Arrange kebabs around sauce. Cover with plastic wrap and place in the refrigerator 1 day ahead.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll free number in the United States). When it's finished transmitting, point your web browser to FaxZero.com — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero.com. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

On the Insert tab, the galleries include items that are designed to coordinate with the overall look of your document. You can use these galleries to insert tables, headers, footers, lists, cover pages, and other document building blocks. When you create pictures, charts, or diagrams, they also coordinate with your current document look.

You can easily change the formatting of selected text in the document text by choosing a look for the selected text from the Quick Styles gallery on the Home tab. You can also format text directly by using the other controls on the Home tab. Most controls offer a choice of using the look from the current theme or using a format that you specify directly.

To change the overall look of your document, choose new theme elements on the Page Layout tab. To change the looks available in the Quick Style gallery, use the Change Current Quick Style Set command. Both the Themes gallery and the Quick Styles gallery provide reset commands so that you can always restore the look of your document to the original contained in your current template.

I understand, agree and certify to the following:
- I will use my FSA to only pay for IRC-qualified purposes permitted under my Employer's FSA plan(s), provided to me and my IRS-eligible dependents, or the state(s) indicated above as being insured within my period of coverage during the plan year.
- I will request reimbursement only after the services have been provided.
- I have not and will not seek reimbursement through any other source, and will exhaust all the other sources of reimbursement, including those provided under my Employer's plan(s), before seeking reimbursement from my FSA.
- I will collect and maintain sufficient documentation to validate my reimbursed FSA expenses.
- I will not claim any reimbursed FSA expense for any federal income tax deduction or credit.
- I specifically release my Employer and Navia Plan from any liability resulting from either my participation in any FSA or for any misrepresentation I make regarding my requests for reimbursement.
- If I participate in my Employer's Dependent Care FSA Plan, I will file a Form 2441 with my Federal tax return and provide any taxpayer identification number required.
- The dependent care expenses I submit for reimbursement were incurred to allow me and my spouse (if married) to work or actively look for work. My spouse is considered working (i.e., actively employed) if he or she is a full-time student for five months during the calendar year at an educational organization, or is physically or mentally incapable of self-care.

Why should I buy this for my grandchildren while they are still young?

As you know, getting life insurance as an adult has always been — sometimes impossible, high-risk jobs, or age can make it expensive or even impossible. By starting protection for your grandchildren now, you can help make sure they will have access to affordable protection no matter what life throws at them.

How long can my grandchildren keep this protection?

Since this is permanent group coverage, your grandchildren can keep this protection for life, as long as the Enrollment Form is returned with enhanced rate premiums are paid when due. Life rates don't go up just because they're older. New York Life guarantees the right to accept the premiums on the Enrollment Form as long as the premiums are paid. Coverage stops only when premiums stop, or in rare circumstances allowed by law.

What happens if I pass away while I'm still paying for this?

Don't worry. The protection comes with a valuable feature that can pay your premiums for you. If your child or grandchild is under age 24, and you pass away, your child will be able to keep the coverage in force without you paying premiums. As long as coverage is in effect two years prior to your death, any premiums will be waived for each month your child is under age 24. At that time, the coverage may continue, but premiums will then be the responsibility of your child.

Does my grandchild get a bonus or dividends or their rates automatically go up?

No. Their rates will never increase simply because they grow older. And, as you can see from the options below, these rates are affordable. Not below, for some plans details.

Do they need to visit a doctor to be approved?

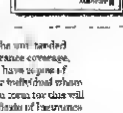
Acceptance is based on the answers to the four health questions on the enclosed Enrollment Form. We will not require a medical exam or doctor's visit.

Are there any exclusions?

If death results from suicide in the first two years, benefits will not be paid.

What's the best way to tell them about this gift?

We'll send you a letter that you can personalize and give to each grandchild you name. This is a great way to announce this loving gift to your grandchildren and your parents.



In order to protect against the unintended cancellation of this life insurance coverage, you have the right to have copies of these notices sent to another trusted adult when you designate. A designation form for this will be included with your Certificate of Insurance.

What Are My Grandchildren's Coverage Options?

As an AARP member, you can apply to get this lifetime protection for all your grandchildren ages 3 weeks to 17 years. Current rates start at $8 a month for each child you name. Please choose from one of the following options:

Option A	Option B
$20,000 of Coverage for $5 per Month	$50,000 of Coverage for $10 per Month

Twice the protection for $5 more!

Please see the Certificate of Insurance for Term Life Coverage for the state where you live. Premium rates are guaranteed. However, they may change only if they are changed for all others in the same class of insureds in the same group, such as, for example, a class of insureds of a group of people with the same occupation and position.

If you have a question or want to speak to someone, please call us at 1-800-YOUR-LIFE (1-800-968-7543) and ask for a representative who speaks Spanish.

Available in all states except New York.

Apply in minutes.

Complete and mail the easy Enrollment Form today.

IMPORTANT NOTICE

We are in your neighborhood looking for homeowners who are interested in receiving a **FREE Wireless Home Security System** (an $850 value) for simply displaying a small ADT security sign in your front yard. This helps us spread the word that ADT is helping protect homes in that area, but more importantly, your home in particular will be secure with a monitored home security system. Your system includes an easy to use keypad, motion detector, door and window sensors and high decibel alarm. It's free with $99 customer installation charge and purchase of alarm monitoring services *(see important terms and conditions to this offer below)*

- **24/7 ADT Monitoring – Burglar, Fire and Medical**
- Panic Buttons for Police, Fire and Medical Emergencies
- Wireless Equipment with Easy to Use Keypad
- No Home Telephone Line Needed
- Professional Installation
- Trusted by Over 6 Million Homeowners
- ADT Theft Protection Guarantee *(certain restrictions apply)*
- **May Save up to 20% on Your Homeowner's Insurance**

When you are away from your home, in bed at night, at work or on vacation, you want to know that your home, loved ones and pets are protected. ADT is the #1 security monitoring company in America! with fast, reliable response times to emergencies. It is now very economical to help protect your home with monitoring for only about a dollar per day.

This equipment package is WIRELESS and the technology has many benefits – most importantly, it is safe and reliable. The system looks great, is easy to use and requires no additional holes in your walls or exposed wires throughout your home.

Call 1-877-420-1297 now and help protect your home today. In addition to the free home security system (an $850 value), the **first 20 homeowners** to mention promo code VA-RTD-NPFSI-1114 when placing their order will receive:

- **$100 Visa® Prepaid Card** provided by SecurityAlarmNow, your local ADT Authorized Dealer
- **2 FREE Keychain Remotes** ($199 value), which allows you to turn the system on and off with a simple press of a button

Call by Friday to receive this special offer and ask about our next day installations!

CALL NOW, TOLL FREE: 1-877-420-1297 and mention promo code VA-RTD-NPFSI-1114!

The Print-out of Doom

The Print-out of Doom was the sequel to the bestselling chest tapper, The Tyrantry Terror. The sequel to the series was released in November 2003 and follows the continuing saga of its star evil fax machine. After the business closes down at the end of The Tyrantry Terror, the fax machine is sold off along with the majority of the company's other assets. The fax machine doesn't work at first when it is used by its buyer, so they throw it out of a window into a skip.

However, the characters get more than they bargained for as the fax machine makes its way back into the house overnight. They continue to dispose of it but it keeps coming back, and every time it does, more horrifying accidents occur. So the two buyers decide to dispose of it once and for all by chopping it into pieces with an axe.

Only even this doesn't stop the fax machine. The next morning it is back, completely reformed. And, as the blurb comments, *"It's pissed."*

When Roger was quizzed in an interview whether the fax machine works alone or has an 'accomplice', he merely responded:

"That would be interesting."

In the books following, there have been no further hints to this possibility though Roger has not yet ruled it out.

The Culture of Japan
Have you ever heard of Tanka?

Tanka is a traditional style of Japanese poetry, which is made up of 31 syllables (5-7-5-7-7). To use this style, poets must condense their feelings of love, yearning, admiration and longing for nature and life into subtle nuances and picturesque words. Because they must condense such strong feelings into such short simple forms, the selection of the appropriate Kanji or Hiragana (syllabify alphabet) has become an art from in itself. The more subtle or elegant the words the stronger and more vivid the readers' imagination.

Because of the nature of this style of poetry, and the close ties to the language and culture , Tanka has developed a simple elegant, classical style all its own.

People who read Tanka are free to let their imagination soar. The same Tanka may evoke different

4. Eligibility for benefits is determined without any regard to race, color, sex, age, disability or national origin. We ask about your race so that we can comply with the Federal Civil Rights law; however you are not required to provide this information. If you choose not to provide this information we will indicate an ethnic/race category for you for data collection purposes.

5. Certain information given on your application, such as your income must be verified. If you cannot get the necessary papers, you will need to sign a release form so that we can get them for you.

6. You must provide accurate information. A person who gives false information or misrepresents the truth is committing a crime and can be prosecuted under federal law or state law or both. The value of benefits received by a person who was not entitled to receive them is subject to recovery by the state.

7. IF YOU MOVE, please tell us your new address so that important mail about your application and membership will reach you without delay. Also, you must tell us if you get health insurance from another source, such as Medicare, or if your employer offers health insurance coverage.

8. The immigration status of non-citizens who are applying for HIP is subject to verification by the Bureau of Citizenship and Immigration Services (CIS). Undocumented aliens, immigrants and lawful permanent residents who have not yet lived in the U.S. for 5 years are not eligible for full HIP benefits. HIP does not report undocumented immigrants to the CIS.

9. Your rights to payments for medical care are assigned to the State of Indiana if you are found eligible for HIP. This includes rights to medical support and payments for any medical care that you have or believe that yourself or your children receiving Hoosier Health-wise/Medicaid.

10. If you believe that you have been discriminated against and wish to file a complaint, you may do so by contacting the Department of Health and Human Services, Regional Manager, Region V, Office for Civil Rights, 233 N. ALSOP

This is the top line

When in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.--That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, --That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.--Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.
He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.
He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.
He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.
He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.
He has refused for a long time, after such dissolutions, to cause others to be elected, whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.
He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

MFD ECOPY Test Doc

Here are a list of functions to test on ECOPY enabled MFDs.

1) Create a Test page in MS Word with the text "MFD Name - Test". The font type and font size can be whatever you like but will fit on a single page. Save this page for subsequent fax tests from the named MFD
2) Press the ECOPY button on the MFD touch screen. Log into ECOPY with your NT Domain username ID and password.
3) Run a Scan To Test and send the Test Page from Step 1 to your own email
4) Run a Scan To Mail test and send the Test Page from Step 1 to your own email
5) Use the Express feature within ECOPY to transmit test Page from Step 1 to the Expertfax mailbox
6) Send the Test Fax from Step 1 to Expertfax at 1 855 330 1324. Please view the inbound fax at Expertfax.net to confirm the fax sent successfully received. Fax quality should be similar to the original as the Expertfax.net fax page if sent successfully. If fax text does not show the correct text for the MFD, please check the Fax Station Identifier (FSI).
7) Dial the fax number from a touch-tone phone. Listen for the normal fax tones. The fax will be heard prompted to "Stop" before you get a busy signal, then the fax line may not be working correctly from the main phone line. The fax line should be tested.
8) Send a fax to the fax number 2 people and make a call to a second party. Please ask the party if he or she is not at a nearby location. Please confirm that the fax is received at the device.

Please record the results below

MFD Print Queue Name	
MFD Hardware Model	
MFD Fax Number	
Physical Location	

Initials	Description
	Scan to Self performed, and Test Page arrived in user's personal mailbox
	Scan to mail performed, and Test Page arrived in user's personal mailbox
	Outbound Fax to Expertfax test call received correct on thumbnail
	Outbound fax to another nearby MFD was successful
	Inbound fax test call received on MFD from Expertfax mailbox being received
	Express testing completed

Please indicate that the above checklist is complete and the MFD is ready for use by the end user.

1. Define a user name and password to allow privileged level 15 switch access for a remote user (HTTP and HTTPS).

In this example, the user name is Dell, the password is Dell1234, and the privilege level is 15. Privilege levels range from 1–15, with 15 being the highest level. Level 15 access is the only level of access for the Web interface.

```
console#config
console(config)#username Dell password Dell1234 level 15
console(config)#ip http authentication local
console(config)#ip https authentication local
console(config)#crypto certificate generate key_generate
Generating RSA private key, 1024 bit long modulus
console(config)#ip https server
```

2. Define a user name and password to allow access for a local user—console, Telnet, or Web Server, for example. The enable password for console, telnet, and SSH is tommy123, bobby123, and jones123 respectively.

In this example, the user name is Dell, the password is Dell1234, and the privilege level is 15.

```
console(config)#username Dell password Dell1234 level 15
console(config)#aaa authentication login default local
console(config)#aaa authentication enable default line
console(config)#line console
console(config-line)#login authentication default
console(config-line)#enable authentication default
console(config-line)#password tommy123

console(config)#line telnet
console(config-line)#login authentication default
console(config-line)#enable authentication default

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855 330-1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Features some of the best explorers of sound poetry and general transformers of the spoken word. Is this nonsense? Is it music? Are we serious? Ultimately we don't know but we really enjoy it and this is a fun introduction to a kind of audio art that all too often is alienating. Features, amongst others: the work of Jaap Blonk, Leif Elggren & Thomas Lilfenberg, Christian Bok and Stanley Unwin

Sound-Poetry is a form of art where the human voice is used as an exploratory instrument, and language is subjected to the death of rationality. It can sound powerful and ludicrous, often both at the same time.

One of the main reasons for creating a sound-poetry based episode is that sound poetry is often considered in "avant garde music circles" as something of a sacred cow, and it is completely unacceptable to find amusing the screaming man spluttering saliva and nonsense invective before the microphone. But more fool them squares in the music circles. Bad line that, like a 1980s T shirt.

I have always found sound-poetry and much music that is put under the umbrella of the avant-garde very very funny. It makes me smile and laugh. Sometimes out loud. Sometimes a wry smirk like a disgruntled accountant silently farting in a meeting with the bosses.

One of the principal reasons we wanted to look at this was to convey the much hidden fact that it's alright to laugh at this kind of work. And equally important, that humour in art (or to respond to art with humour whatever the intention of the artist) does not detract whatsoever from the quality of the art.

In fact humour in art can often greatly enhance the quality and accessibility of a production. It is, after all, arguably far more difficult to create something amusing than something deadly serious.

Try both and see it can.

Setup for Fax Reception

Read this manual after finishing the operation of **Getting Started**.
To use the fax features of the machine, you can enter the fax settings through the **Easy setup**.

Using Easy setup

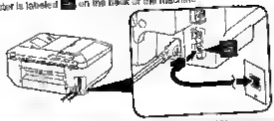
Press the **MENU** button, then select in the order of **Setup** > **Device settings** > **FAX settings** > **Start Easy setup** or **Easy setup** > **OK** button or **Start setup**.

Use the ◀ ▶ or ◀ ▶ button to select the item, then press the **OK** button.

Easy setup starts up.
Follow the on-screen instruction to complete the settings in accordance with the operating environment.

Complementary Information about Fax Setting Using Easy setup

Connect the machine to a telephone jack with the supplied telephone line cable.
The connector is labeled [LINE] on the back of the machine.



- A basic connection method is shown in this figure. For other connection methods, refer to the **Online Manual**.
- Users in Europe: if you prepare your own telephone line cable, be sure it is a 3-wire telephone line cable.

Special Offer for
Accountants

Unsubscribe info at bottom of page

If potential clients get voicemail, a busy signal, or the phone ringing and ringing when they call you, some portion of them will simply hang up and call another CPA. We can fix this.

We can be your receptionist or help supplement your existing one. We can answer your phone with a competent and friendly voice whenever you need us. We can help you get new clients, improve client satisfaction and make your life a little easier. We offer a two week free trial so you can see what we're like – if you're not satisfied when the free trial is up, you owe us nothing.

Call us today for a free quote - 855-247-6787

Your Customer calls your number

A friendly voice answers your line with your company name

You get a text message on your cell in seconds (we can also e-mail, fax or even transfer a call)

Two-Week Free Trial for All Accountants

What we can do for your company

- We answer in your company name
- We sound like a receptionist, not a large call center.
- We specialize in making great first impressions
- Turn us on/off easily when you need us, or ...
- ...we can answer automatically after so many rings.
- Use us business day, after hours...or both
- We want your business and we will work with you to find a custom solution that meets your needs. Just ask us!

Direct Deposit Request

Direct Deposit is now available for all employees. With Direct Deposit you can automatically deposit all or part of your pay in up to three different accounts (including checking, savings and IRA) at the financial institution of your choice. By having your pay automatically deposited you:

- Have your pay in your account on payday, without going to the bank
- Stop the possibility of lost, stolen or destroyed checks.
- Save time making trips to the bank to cash or deposit your check
- Will still receive a pay statement displaying your earnings and deductions.

If you would like to sign-up for Direct Deposit, please return the bottom portion of this form, along with a voided check or bank spec for the account(s) you wish to deposit your money. (No deposit slips)

Please note that it may take up to 2 payments before your direct deposit is active

Authorization Agreement for Automatic Direct Deposit

I hereby authorize [redacted] *hereinafter referred to as "Company" to initiate credit entries for sums to and payable to me to my checking, savings or other account indicated below and the Financial Institution named below, hereafter referred to as "Depository" to credit the same to such account. I also authorize Company to initiate debits for sums due to the Company for erroneous deposit or deposits at the Depository.*

I work on this soft mainly because it is a good way for learning Java. But I work on it at home, and I have others things to do too. So don't expect me to resolve problems and to add features quickly and often. As you can see with the date of the previous releases, there is not a new version very often. And don't forget this is a free software with GPL license. That means you have the source code, and you can make modifications on it yourself. I don't think the code is very complicated.

If you want to be warned for new releases, you can subscribe to the announce mailing list (on SourceForge):

TANGIBLE PERSONAL PROPERTY TAX RETURN GENERAL INSTRUCTIONS

Complete this separate Property Tax return in accordance with the instructions provided herein of your definition of personal property located as of January 1. Any reference to machinery, equipment, stores, is a separate sheet. Please print or type except for signature.

WHAT TO REPORT ON THIS RETURN

1). Tangible Personal Property - Include all goods, chattels, and other articles of value (but not certain vehicles) capable of manual manipulation and whose chief value is attributable to the article itself. More specifically all furniture, fixtures, equipment and supplies used in your business or rental property.

2). Items of inventory held for lease or exchange in the ordinary course of business, rather than those that are held for periodic inventory only prior to the bulked items of retail items and MUST be reported after their initial lease or rental or equipment and/or furniture or fixtures.

3). ALL FULLY DEPRECIATED OR EXPENSED ASSETS MUST BE REPORTED AT TOTAL ORIGINAL COST WHETHER WRITTEN OFF OR NOT.

DO NOT INCLUDE:

1). Intangible Personal Property - that is, money, all evidence of debt owed to the taxpayer, all evidence of ownership in a corporation, etc.

2). Household Goods such as wearing apparel, appliances, furniture, and other items ordinarily found in the home and used for the comfort of the owners and/or family, and used for non-rental purposes. (EXCEPTION: Hotel, Motel, Apartments & Rental Units)

3). Automobiles, Trucks, and Other Licensed Vehicles. These are not taxable as personal property (EXCEPTION. The equipment on certain vehicles is taxable as personal property and must be reported. Examples include power sweeps, air compressors, and other equipment designed as a tool rather than primarily as a hauling vehicle.)

4). Inventory. Those amounts consisting of items customarily offered in or goods, items, and merchandise which are held for sale or lease in customary in the ordinary course of business.

VALUATION OF PERSONAL PROPERTY

All property located or held within the County January 1 must be reported at 100% of the total original cost. Include transportation, installing, sales tax, freight and installation charges if incurred. Report the total cost of all items.

ADJUSTMENTS TO VALUE - TAXPAYER'S ESTIMATE OF FAIR MARKET VALUE.

Enter only UNADJUSTED figures in most cases using the Original Cost. An adjustment is a limitation on personal property. Adjusted figures MUST be explained on the hand schedule. Items scheduled for considered part of the values. Florida law provides that the property may take provide an estimate of the current fair market value of the property.

LOCATION OF PERSONAL PROPERTY

A SEPARATE property reports return must be filed for each location in the county. Additional forms will be mailed on request, should the county property appraiser's office.

Separate of vending machines, LP/Propane tanks and similar property at many locations may submit a single schedule listing all locations on that of schedule list below.

SPECIFIC INSTRUCTIONS

In the appropriate, evidence list the Original Installed Cost the ALL items in your locations. Assets in each schedule must be grouped by year of acquisition.

The figure you must as "original cost" must include the total original amount cost of your equipment before any allowance for depreciation. Include freight-in, handling, sales tax and installation costs. If a trade-in was deducted from the balance price, enter the total cost before lease in.

If you own equipment that is the on a lease, rental, or lease basis to others, report it on schedule #2.

Last each item of tangible personal property separately in the appropriate schedule except for "classes" of personal property. A class is defined as items that are SUBSTANTIALLY similar in function, use and age. Do not use the terms "AVERAGE" or "SAME AS LAST YEAR." This is inadequate reporting and may subject you to penalties for FAILURE TO FILE.

List all items of furniture and fixtures all machinery and equipment, supplies, and certain types of equipment intended to enable leases. All expensed items must be included or original cost

For each item, the taxpayer may report their estimate of the current fair market value of the property and their estimate of the condition of that item (Good, Average, Poor).

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Internet Fax - Try Free

Send & receive faxes by email. Get a local fax number instantly

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine: send a one-page fax to 1-855-330-1210 (a toll-free number in the United States). When it's finished transmitting, point your web browser to FaxZero.com. There is a web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, probably the easiest way to test FaxZero.com's site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring. When it does, it will automatically answer and spit out the test fax.

Danish Dough

(/recipes/1017987-danish-dough)

By Samantha Seneviratne Yield Enough for 9 or 10 small pastries, or 1 large braid

Ingredients

1 ½ cups/6 3/4 ounces/192 grams bread flour, plus more for the work surface and the rolling pin

2 tablespoons/24 grams granulated sugar

2 teaspoons/6 grams active dry yeast

¾ teaspoon/3 grams kosher salt

14 tablespoons/198 grams cold, unsalted butter (1 3/4 sticks), roughly cubed

1 large egg

¼ cup/60 milliliters cold whole milk

Preparation

Step 1

Combine the flour, granulated sugar, yeast and salt in the bowl of a food processor. Add the butter and pulse to combine. The butter should be the size of small marbles and peas. Transfer this mixture to a medium bowl.

Step 2

In a small bowl, whisk together the egg, milk and 2 tablespoons/30 milliliters water.

Step 3

Add the egg mixture to the flour mixture. Using a rubber spatula, fold the mixture until it is evenly moistened. Turn the dough out onto a piece of plastic wrap, shape into a small rectangle and wrap well. Chill for at least 3 hours, and up to 2 days.

Step 4

On a lightly floured surface, using a floured rolling pin, roll the dough out to an 8-by-15-inch rectangle. With a short side facing you, fold the dough in thirds like a letter, bringing the top third of the dough down, then folding the bottom third up. Use a bench scraper to help lift and fold the dough if necessary. At this point, the dough will be rough and shaggy with visible butter pieces; as you roll and fold the dough it will come together. Rotate the dough 90 degrees. Repeat the rolling and folding process, then rotate the dough once more and roll and fold again. As you work, dust the work surface, your hands and the rolling pin with flour as necessary. Wrap the dough in plastic wrap and refrigerate for at least 1 hour.

Step 5

Repeat the entire rolling and folding process one more time for a grand total of six turns. If the dough starts to fight you and becomes difficult to roll at any point, just pop it in the fridge for an extra rest. Wrap the dough and refrigerate for at least 2 hours, or overnight.

Tip

If you are using the dough to make the pear and almond Danish braid, add 1 teaspoon/2 grams coarsely ground fresh cardamom to step 1, along with the flour, sugar, yeast and salt.

Patient Name: ngwfassc

Patient DOB: 01-01-1964

Medical Record Number: 142

Date Of Service: 07-24-2014

Procedure: Shockwave Lithotripsy

Surgeon: Otele Okrey , PA

Patient DOB: 01-01-1964

Patient Name: ngwfassc

Indications:

ngwfassc is a 50 year old Female with a history of nephrolithiasis currently with a 0.5mm Upper pole renal stone. Non-Operative management was discussed with the patient. The indications, procedure and potential over-all outcome via lithotripsy were discussed with the patient.

Risks including but not limited to infections, bleeding, hematoma, residual stone, recurrent stone, obstruction, need for further or additional procedures were discussed with the patient and they have asked me to proceed.

Procedure:

After appropriate General anesthesia was administered, the patient was positioned supine on the lithotripsy table. The stones were localized under fluoroscopy in both craniocaudal and anteroposterior views. A total of 253 were delivered to the 0.5 Upper pole renal.

Shockwaves were delivered at a rate of 235 and 235. There was excellent fragmentation of the 0.5 Upper pole renal. The patient was awakened from anesthesia and taken to the recovery room in stable condition.

Disposition: The patient is to follow up in 1 week.

Hello

This is just a quick email "Test FAX"... :D Ok hopefully this works, and saves me time and money from having to buy stamps and mail items. E-Mailing phishing sites. Or good ol' vehicle gas and time from having to take documents in myself.

Praying for the BEST!

AGREEMENT: In consideration of the purchase price paid, Dealer/Creditor agrees that, in the event of the Total Loss of the Vehicle, and subject to all of the terms and conditions of this Addendum, Dealer/Creditor will waive You and Your obligation to pay the Net Finance Contract Payoff as of the date of Loss and the Actual Cash Value; Dealer/Creditor will also waive Your Primary Automobile Insurance Company deductible not to exceed $1,000, which is the total amount of Your liability the Dealer/Creditor will waive will not exceed the Maximum Limit of Payments (See "Basic Provisions" subsection may apply.)

ASSIGNMENT: The Dealer/Creditor intends to assign Your Finance Contract to a subsequent Lender. Assignment of Your Finance Contract shall not in any way affect the terms and conditions of this Addendum. This Addendum is not transferable to any vehicle You purchase later without written approval from the Lender and the GAP Program Administrator. If You substitute another vehicle as permitted under Your Finance Contract, Your must request written approval from the GAP Program Administrator within 30 days of such substitution, in order to keep the Addendum in force.

EXCLUSIONS: This Addendum does not apply in a Total Loss if (1) occurring prior to the effective first of this Addendum; (2) arising out of any dishonest, fraudulent, criminal, or illegal act committed by You or Your agents; (3) arising out of an intentional act by You; (4) to any vehicle used for Commercial Purposes or use for racing or emergency services, (5) in any ineligible vehicles or (6) due to confiscation or repossession.

CANCELLATION: Any time prior to a Total Loss or the expiration of this Addendum, You may cancel this Addendum by sending written notice of the Dealer/Creditor. The Dealer/Creditor will refund to You the unearned balance of the Administrator purchase price, calculated as follows: If the cancellation is effective within the first sixty (60) days 100% of the purchase price. If the cancellation is effective after the first sixty (60) days the pro rata unearned portion of the purchase price or as calculated by the state. The Lender will be informed as it pertains to any cancellation refund. In the event of a repossession of the Vehicle by the Lender, any refund amount will be made payable to the Lender as the sole payee. The Lender assumes responsibility for applying any refund to the Finance Contract.

HOW TO SUBMIT A CLAIM: In the event of a Total Loss, You must provide the following documents or the GAP Program Administrator within ninety (90) days of the Primary Automobile Insurance Company settlement; a written in no way (90) days of the Date of Loss. If You do not have Primary Automobile Insurance, You have 90 days of the Date of Loss.

1. A complete copy of Your Primary Automobile Insurance Company policy and settlement statements, showing all additions and deductions for the settlement amount, provided however this requirement shall not apply when You do not have Primary Automobile Insurance in effect at the Date of Loss.
2. A copy of the original Finance Contract, including the purchase order or buyer agreement.
3. A copy of the odometer/theft police report.
4. A statement from the Lender showing the Net Finance Contract Payoff amount as of the Date of Loss
5. Complete payment history statements regarding any late payments or any other charges, if any
6. A copy of Your Net Finance Contract Payoff be provided to You by Your Lender.
7. Other documents that may be reasonably requested of You by the GAP Program Administrator

If You do not provide requested documents to the GAP Program Administrator within 12 months of receiving the request, Your claim will be closed. You are responsible for requesting the remaining or cancellations on all cancellable items. All documents must be sent to the following address CNA National Auto GAP Program Administrator 4150 N Drinkwater Blvd, Suite 400 Scottsdale, Arizona 85251 Phone 877-348-0191 ext. 400

MISREPRESENTATION AND FRAUD: In issuing this Addendum and processing claims the Dealer/Creditor and GAP Program Administrator are relying on the truth of all representations made by You. If You (1) attempt or commit fraud relevant or this coverage, (2) present false or misleading information, or (3) fail to disclose material facts regarding the Vehicle, the Finance Contract, this Addendum or in submitting a claim, the Dealer/Creditor and/or GAP Program Administrator will not pay for any claim and may terminate this Addendum.

TERMINATION: This Addendum automatically terminates without notice on the earliest date that any of the following occurs: (1) the term of this Addendum expires, (2) the original termination date of Your Finance Contract is reached; (3) eighty-four (84) months after the purchase date of this Addendum is reached, (4) You prepay the entire balance of Your Finance Contract [You must send written notice to the Dealer/Creditor to request the refund that may be due to You], (5) You refinance Your Finance Contract, or You substitute another vehicle for the Vehicle and do not request written approval from the GAP Program Administrator, or (6) a Total Loss occurs in the event of a Total Loss the Administrator purchase price is earned fully earned and no refund is due You

Hello!

This is a sample text file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s)

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file, many other file types are supported.

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 9AM to 5.30 PM M-F Pacific Time

E Mail: hw-support@interpage.net

Web: http://www.interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will not accept transmit personalized text messages, only the above fixed sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the form located at http://www.interpage.net/trial-fax/ trial.html, omitting any billing information, and directly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. The fax is not a sales direct mail or an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this trial fax. A single destination may not receive more than two tests in a given week; however, if you find that someone is sending you faxes in a continuous and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

DEFENSE ATTORNEYS

Below are some examples of questions to use with your client while on the stand. Go over them with your client before the trial. Make the questions fit your case. Use questions which are relevant to that case. Don't ask your client anything that will make he/she look bad.

1. Is this your first offense?
2. Tell exactly what happened.
3. Who was with you? When was it?
4. If theft, Why did you take the item?
5. Do you usually take things that are not yours?
6. Do you usually obey the law?
7. How old are you?
8. Do you help at home with the chores?
9. What responsibilities do you have?
10. Do you have good attendance at school?
11. What activities do you participate in?
12. Did your parents punish you for this offense? How were you punished? What did they think of the offense?
13. Do you think you will ever commit this offense again? Are you sorry for what you did?
14. What do you plan to do to keep from doing this again?

TERMS AND CONDITIONS (Continued)

10) **Termination without Cause:** Following expiration of any applicable Minimum Period Either or as may terminate any service provided under a month-to-month service order with sixty (60) days written notice. In the event You terminate or discontinue any Service prior to the expiration of the then current term You agree to pay Us within 14 days of termination: 1) the monthly recurring charges and minimum monthly usage amount (if applicable) multiplied by the number of months remaining in the Service term period and 2) any previously waived installation, monthly access charges and special promotional credits given in one lump sum (collectively the "Early Termination Fee"). Any termination of Service or of this Agreement will result in all IP Addresses and phone numbers assigned by us to you reverting back to NHC. All NHC property (including but not limited to NHC routers, switches, equipment, facilities and software) shall be returned to NHC. If the property is not returned and received within 30 days of the Service termination date, we will bill you for the missing property on the following month's invoice which you will be obligated to pay in full

11) **Interruptions of Services:** We shall not be liable for any delay or failure of performance of any part of this Agreement to the extent this such failure or delay is caused by Acts of God, acts of civil or military authority, government regulations, embargoes, epidemics, war, terrorist acts, riots, insurrections, fires, explosions, earthquakes, nuclear accidents, floods, strikes, power blackouts, cable cuts, volcanic action, other major environmental disturbances, unusually severe weather conditions, inability to secure products or services of other persons or transportation facilities, or acts or omissions of transportation common carriers or other causes beyond Our reasonable control. If any scope of performance ceases, We will give you reasonable notice and use reasonable efforts to restore the services. Under such circumstances, we shall not be responsible for providing services. Such services shall resume when service can reasonably be restored

12) **Limitation of Liability:** NHC's liability for any damages arising from errors, mistakes, omissions, interruptions or delays owner by it, its agents, employees or underlying carriers in the course of establishing, furnishing, expressing moving, terminating, maintaining, restoring or changing Service or facilities provided hereunder or Our failure to perform any other duty arising out of this Agreement shall not exceed an amount equivalent to the actual proportional charge for the Service applicable for the period during which the Service was affected. We shall not be liable for any consequential, indirect or service damages with respect to any illness regarding the assistance to provided hereunder

13) **Indemnification:** You agree to indemnify defend and hold NHC, its parent, affiliates, employees, directors, officers agents, underlying carriers, and sub-contractors, harmless from any claim, loss or damages including actual attorneys' fees, resulting from Your breach of any term of this Agreement, the AUP, Your placement of any material or service on Our network, or from Your use of Our services, regardless of Your knowledge a consent.

14) **Warranties:** NHC makes no warranty, express or implied, as to the description, completeness, quality, merchantability or fitness for a particular purpose of any service provided pursuant to any service order unless hereunder or that any such service shall be uninterrupted or error-free unless expressly provided to a service level agreement or service addendum executed by both of Us

15) **Use of Service:** You shall not use the Service in any manner other than that for which the Service was intended and shall refrain from using the Services in any manner which would adversely affect Our equipment, network or the Our service to others. We reserve the right to discontinue services without notice in the event of any such unlawful or adverse use.

16) **Assignments:** You May not assign your rights or delegate your responsibilities hereunder without our express written permission except pursuant to the sale of Your business, or all or substantially all of Your assets. We may at any time, assign our rights or delegate our obligations hereunder in accordance with the law of the Commonwealth of Massachusetts

17) **Acceptable Use Policy ("AUP"):** We reserve the right to modify the AUP at any time without notice. Changes or updates to the Policy agrees effective upon posting. Illegal use of the Service is strictly prohibited. You are responsible to check the Service(s) you subscribe for, violation of

The Back Cover Photo

From the Some People Have Entirely Too Much Time On Their Hands Dept., here is a true "minivan" recreation of our own 2600 van, made from a Tonka toy phone van picked up at an antique shop in Austin, Texas. The tires are a little weird and our rear end looks a lot better, but it's a valiant effort.

Photo by Golden Helix

Do you have a photo for the back page?

Mail it on a CD to 2600 Editorial Dept. PO Box 99 Middle Island, NY 11953 or email it to our articles@2600.com (Yes, we know it's not technically an article but please humor us.) When taking digital photos, be sure to use the highest possible resolution. If we use your picture, you'll get a free subscription (or back issues) and a 2600 t-shirt.

El Reto del los 21 días

El reto invita a los alumnos a que entren a la cocina y puedan creat su propio snack. Invitamos a las familias a tomar el reto juntos mientras que desarrollan hábitos de comer saludables de por vida comiendo un snack a la vez.

PASO 1:

Padres, favor de registrar a su hijo para el Reto de los 21 días en www.teaching-kids.com
Haga "clic" en "Sign-Up"
Haga "clic" en "Sign-Up a Student"

Si usted va a registrar a más de un niño, favor de completar un registro por cada uno.
Anote el "Código Secreto" de ocho dígitos en el Registro de Snacking en el reverso del libro de recetas.
Usted recibirá un código diferente para cada niño que se registre.

Los padres y maestros también pueden registrarse para el reto en nuestro sitio.
Haga "clic" en "Sign-Up"
Haga "clic" en "Sign-up an Adult"
Registre su "Código Secreto" de ocho dígitos

PASO 2:

Cada día por 21 días continuos, puedes crear un "snack" que incluya una fruta o un vegetal. Puedes usar el libro de recetas" que recibiste, o el "healthy snack finder" en www.kids-teaching-kids.com.

Nota: Para usar el "healthy snack finder", simplemente teclee su ingrediente. El snack finder buscará en nuestra base de datos de entre cientos de snacks saludables que utilizan ese ingrediente.

*También puedes descargar el libro de recetas gratis en nuestro sitio.

PASO 3:

Cada día, anota lo que comiste como "snack" en tu Snacking Log que se encuentra detrás de tu libro de recetas, o en el que recibiste por correo electrónico después de que te registraste.

PASO 4:

Dos semanas después de completar el reto, espera un correo electrónico para recibir una breve encuesta. Usa tu código secreto y tu registro de snack para completar la encuesta. Los alumnos que se han registrado, que han completado el reto y que han tomado la encuesta, recibirán un reconocimiento cuando regresen de vacaciones de Sprug Break.

¡Hey alumnos! ¿Están listos? Registrense entre el 9 y el 22 de enero

remedies with respect thereto) shall survive with respect to any Confidential Information received prior to such expiration or termination.

8. The Assigned VSC ACP acknowledges that Confidential Information is unique and valuable, and that disclosure in breach of the Agreement will result in irreparable injury to the VSC for which monetary damages alone would not be an adequate remedy. Therefore, the Assigned VSC ACP agrees that in the event of a breach or threatened breach of confidentiality, the VSC shall be entitled to specific performance and injunctive relief as a remedy for any such breach or anticipated breach without the necessity of posting a bond. Any such relief shall be in addition to and not in lieu of any appropriate relief in the way of monetary damages.

9. VSC and Assigned VSC ACP agree that Company and Company's Client, as described in the SOW are third party beneficiaries of this Non-Disclosure Agreement and that Company or Client shall have the right to the remedies and to take any of the actions described in Section 8 herein above against Assigned VSC ACP to enforce the terms of the Non-Disclosure Agreement, due to Assigned VSC ACP's breach or improper disclosure of any Company or Client Confidential Information or data in violation of the terms hereof.

10. No failure or delay in exercising any right, power or privilege hereunder shall operate as a waiver thereof, nor shall any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any right, power or privilege hereunder.

11. This Agreement: (a) is the complete agreement of the Parties concerning the subject matter hereof and supersedes any prior agreements with respect to further disclosures concerning such subject matter; (b) may not be amended or in any manner modified except by a written instrument signed by authorized representatives of both Parties; and (c) shall be governed and construed in accordance with the laws of the State of Florida without regard to principles of conflicts of laws.

12. If any action is brought for the enforcement of this Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provision of the Agreement, the successful or prevailing party shall be entitled to recover reasonable attorney's fees, costs and all expenses even if not taxable as court costs (including, without limitation all such fees, costs or expenses incident to appellate and bankruptcy proceedings), incurred in that action in addition to any other relief to which such party or parties may be entitled. Attorney's fees shall include without limitation para legal fees, investigative fees, administrative costs, costs and use taxes and all other charges billed by the attorney to the prevailing party.

13. If any provision of this Agreement is found to be unenforceable, the remainder shall be enforced as fully as possible and the unenforceable provision shall be deemed modified to the limited extent required to permit its enforcement in a manner most closely representing the intentions of the Parties as expressed herein.

14. Any third party who supplied Confidential Information to the VSC shall be deemed to be a third party beneficiary of this Agreement in the event of any breach of this Agreement by the Assigned VSC ACP with respect to such Confidential Information.

IN WITNESS WHEREOF each of the Parties hereof and caused this Agreement to be executed by its duly authorized representative.

Marinated Chicken Breasts

Recipe
Ratings & Reviews (187)

Rate This Recipe

Total Time	8 hr 15 min
Prep	5 min
Inactive	8 hr 0 min
Cook	10 min
Yield	4 servings
Level	Easy

Ingredients

1 to 2 tablespoons vinegar
2 to 3 teaspoons dried herbs, like thyme, oregano, rosemary or crumbled bay leaf
1 to 2 tablespoons mustard, whole grain or Dijon
1 to 2 teaspoons garlic or onion powder, optional
1 cup extra-virgin olive oil
Kosher salt and freshly ground black pepper
4 boneless, skinless chicken breast, each about 6 ounces

Directions

Put the vinegar, herbs, mustard, powder, if using, and oil in a large resealable plastic bag. Close the bag and shake to combine all the ingredients. Open the bag, drop in the chicken breast in the bag. Close and shake the bag to coat evenly. Freeze for up to 2 weeks.

Thaw in the refrigerator overnight, under cold, running water or in the microwave at 30 percent power for 1 minute at a time.

Heat a grill or grill pan. When the grill is hot, place the chicken on the grill and cook for about 4 minutes per side or until cooked through. You can also bake the chicken in a 350 degree F oven for 15 minutes until cooked through.

Fax something interesting to [illegible] 1-510-545-0690

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to [illegible]-x-s... (your boss will never notice... maybe) and it should appear here within a couple of minutes. (The number is in Northern California, USA. Long distance charges may apply.) Keep it clean & legal.

Fax single page documents with no cover sheet. If you fax more than one page, only the first page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. We need it to figure and collect the right amount of tax. Chapter 23, Federal Unemployment Tax Act, of Subtitle C, Employment Taxes, of the Internal Revenue Code imposes a tax on employers with respect to employees. This form is used to determine the amount of the tax that you owe. Section 6011 requires you to provide the requested information if you are liable for FUTA tax under section 3301. Section 6109 requires you to provide your identification number. If you fail to provide this information in a timely manner or provide a false or fraudulent form, you may be subject to penalties and interest.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books and records relating to a form or instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law.

Generally, tax returns and return information are confidential, as required by section 6103. However, section 6103 allows or requires the IRS to disclose or give the information shown on your tax return to others as described in the Code. For example, we may disclose your tax information to the Department of Justice for civil and criminal litigation, and to cities, states, the District of Columbia, and U.S. commonwealths and possessions to administer their tax laws. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

The time needed to complete and file this form will vary depending on individual circumstances. The estimated average time is:

Recordkeeping	9 hr., 18 min.
Learning about the law or the form	1 hr., 23 min.
Preparing, copying, assembling, and sending the form to the IRS	1 hr., 36 min.

If you have comments concerning the accuracy of these time estimates or suggestions for making Form 940 simpler, we would be happy to hear from you. You can email us at *taxforms@irs.gov*. Enter "Form 940" on the subject line. Or write to: Internal Revenue Service, Tax Products Coordinating Committee SE:W:CAR:MP:T:M:S, 1111 Constitution Avenue, NW, IR-6526, Washington, DC 20224. Do not send Form 940 to this address. Instead, see *Where Do You File?* in the instructions for Form 940.

Objectives: To determine if the operative time, postoperative pain score or air leakage after pulmonary wedge resection is affected by the use of a surgical sealant.

Methods: In a clinical protocol that was part of a multicenter investigation, patients undergoing pulmonary wedge resection were randomized to receive a surgical sealant (Progel) or no sealant. Operative time, postoperative pain score, and air leakage were recorded.

Results: In a clinical protocol that was part of a multicenter investigation, patients undergoing pulmonary wedge resection were randomized to receive a surgical sealant (Progel) or no sealant. Operative time, postoperative pain score, and air leakage were recorded.

Conclusions: In a clinical protocol that was part of a multicenter investigation, patients undergoing pulmonary wedge resection were randomized to receive a surgical sealant (Progel) or no sealant. Operative time, postoperative pain score, and air leakage were recorded.

Murphy's Laws of Computing

1. When computing, whatever happens, behave as though you meant it to happen.
2. When you get to the point where you really understand your computer, it's probably obsolete.
3. The first place to look for information is in the section of the manual where you'd least expect to find it.
4. When the going gets tough, upgrade.
5. For every action, there is an equal and opposite malfunction.

Patient Name: npwfasdc

Patient DOB: 01-01-984

Medical Record Number: 142

Date Of Service: 07-24-2014

Procedure: Shockwave Lithotripsy

Surgeon: Cicilo Glacy, PA

Patient DOB: 01 01 984

Patient Name: npwfasdc

Indications:

npwfasdc is a 50 year old Female with a history of nephrolithiasis currently with a 0.6cm Upper pole renal stone. None Options for management were discussed with the patient. The risks, benefits, and complications for extracorporeal lithotripsy were discussed with the patient.

Risks including but not limited to fractures, bleeding, hematoma, residual stone, recurrent stone, stent/ureteral need for further or additional procedures were discussed with the patient and they have asked me to proceed.

Procedure:

After appropriate General anesthesia was administered, the patient was positioned supine on the lithotripsy table. The stones were localized under fluoroscopy in both coronal and anteroposterior views. A total of 253 were delivered to the 0.6 Upper pole, renal.

Shockwaves were delivered at a rate of 235 and 235. There was excellent fragmentation of the 0.6 Upper pole, renal. The patient was awakened from anesthesia and taken to the recovery room in stable condition.

Disposition: The patient is to follow up in 1 week.

Prep Time 10 Minutes
Cook Time 40 Minutes
Ready In 50 Minutes
Servings 8

"This soup is easy to put together and the flavor of the spicy sausage is balanced nicely by Great Northern beans, zucchini, fresh spinach and carrots. Makes a delicious winter supper."

INGREDIENTS

- 1 pound Italian sausage
- 1 clove garlic, minced
- 2 (14 ounce) cans beef broth
- 1 (14.5 ounce) can Italian-style stewed tomatoes
- 1 cup sliced carrots
- 1 (14.5 ounce) can great Northern beans, undrained
- 2 small zucchini, cubed
- 2 cups spinach, packed, rinsed and torn
- 1/4 teaspoon ground black pepper
- 1/4 teaspoon salt

DIRECTIONS

1. In a stockpot or Dutch oven, brown sausage with garlic. Stir in broth, tomatoes and carrots, and season with salt and pepper. Reduce heat, cover, and simmer 15 minutes.
2. Stir in beans with liquid and zucchini. Cover, and simmer another 15 minutes, or until zucchini is tender.
3. Remove from heat, and add spinach. Replace lid allowing the heat from the soup to cook the spinach leaves. Soup is ready to serve after 5 minutes.

Prayer to St Joseph over 1900 years old

O St Joseph whose protection is so great so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St Joseph, Patron of departing souls, pray for us Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere.

Imprimatur

THE WRAP PROCESS

WIDEN YOUR OPTIONS

Narrow framing leads us to overlook options. *(Teenagers and executives often make "whether or not" decisions.)* We need to uncover new options and, when possible, consider them simultaneously through multitracking. *(Think AND not OR.)* Where can you find new options? Find someone who has solved your problem. Try "widening" first: look for current bright spots *(local)*, then best practices *(regional)* and then analogies from related domains *(distant)*.

REALITY-TEST YOUR ASSUMPTIONS

In assessing our options, the confirmation bias leads us to collect skewed, self-serving information. To combat that bias, we can ask disconfirming questions *(What problems does the iPod have?)*. We can also zoom out *(looking for base rates)* and zoom in *(seeking more nuance)*. And whenever possible we should ooch, conducting small experiments to teach us more. Why predict when you can know?

ATTAIN DISTANCE BEFORE DECIDING

Short-term emotion tempts us to make choices that are bad in the long term. To avoid that, we need to attain distance by shifting perspective. What would I tell my best friend to do? Or what would my successor do? *(Or try 10/10/10.)* When decisions are agonizing, we need to clarify our core priorities—and go on the offensive for them. *(Remember the stainless steel bolts on the Navy ship.)*

PREPARE TO BE WRONG

We are overconfident. In making we know how the future will unfold when we really don't. We should prepare for bad outcomes *(premortem)* as well as good ones *(pospremo)*. And what would make us reconsider our decisions? We can set tripwires that snap us to attention at the right moments. *(David Lee Roth's brown M&M, Zappos' $1,000 offer).*

Run Time Specs for Sportsman Model #GEN4000LP

Specs say gen will run 50% load (2000 watts) for 10 hours on 20 lbs LPG

4.24 lbs LPG = 1 gal LPG

1 gal LPG = 4.24 lbs LPG

145 lbs LPG (full 80% ASME tank) divided by 20 lbs = 7.25 (20 lbs units) x 10 hours = 72 hours runtime.

Gen will run 72+ hours at constant 2000 watt load

Gen will run 6 days for 12 hours/day at constant 2000 watt load

REF. Manchester LPG ASME tank = 42.7 gal at 100%
Manchester LPG ASME tank = 34.2 gal at 80%
34.2 gal x 4.24 lbs/gal = 145 lbs LPG

High School Graduation Requirements

Selecting Your High School Courses

Working with your parents and guidance counselor, you should have begun a process of focusing on career interests. By matching your career interests with a career theme at your school, you will find that your classes make more sense because you will be able to see the practical applications of what you are learning.

Whether you choose to enroll in a Career Academy, ROP, Tech Prep or opt for a general program, the high school curriculum is designed to prepare you for an entry level job and/or college entrance. Because requirements for both entry level jobs and college have become more rigorous, the basic requirements for graduation from high school have also become more rigorous.

Oakland Unified School District
High School Graduation Requirements
(OUSD Administration Bulletin 5012B)

These are the minimum requirements that you must complete in order to graduate. *Four year colleges may require additional coursework.*

1. 230 credits in required subjects.
(One semester course = 5 credits
One year course = 10 credits)

2. Grade Point Average (GPA) minimum 2.0

3. Senior Project

4. California High School Exit Exam required for Graduates beginning 2006

High School Grade Placement Requirements

Yearmeal:	50 credits for 10th grade standing
	110 credits for 11th grade standing
	170 credits for 12th grade standing

Required Subjects	Credits	Semesters
English or ELD	40	8 Sem.
Math	30	6 Sem. minimum including Algebra & Geometry
Science	30	2 Sem. A Physical Science 2 Sem. Biology (Life Science) 2 Sem. Science Electives
World Cultures	10	2 Sem.
U.S. History	10	2 Sem.
Amer Gov't/Economics	10	2 Sem. (5 credits each)
World Language (Language other than English)	10	2 Sem.
Visual Performing Arts	10	2 Sem.
Physical Education/ROTC	20	4 Sem.
Electives	60	12 Sem.
Subtotal	230 minimum	

Most students graduate with 240 or more credits.
Students who are not passing core courses are expected to attend summer school. If you have questions, please meet with your guidance counselor.

2. C SOURCE MODULES

This section deals with Solaris source code. It addresses only C source modules, not shell command files or data files of various kinds, which are covered in subsequent sections.

2.1 Generic, ISA Dependent and Platform-Dependent Code

To the extent possible we want Solaris code to be independent of hardware, as most of it already is. Even the kernel in which most of the hardware dependent code appears has many more generic files than hardware-specific files.

Nevertheless, intrinsic differences in hardware sometimes necessitate differences in the code. Because one of our requirements is to have only one distribution (CD) for each instruction set architecture (i.e., one each for SPARC and Intel), we distinguish code differences needed to support instruction set architecture (ISA) differences from those needed to accommodate architectural differences among platforms based on the same ISA. Code related to register windows on a SPARC or the Local Descriptor Table (LDT) on x86 are examples of *ISA*-dependent code. Code related to various multiprocessor implementations, memory management units, or interrupt controllers used on machines with the same processor is called platform-dependent code. In the following sections, we sometimes need to distinguish between ISA- and platform-dependent code, and where each is allowed.

Note that the terms *platform* and *machine* are used synonymously at SunSoft. A platform or machine is one of possibly many computer systems based on the same processor architecture. For example, *sun4c* and *sun4m* are distinct platforms based on the SPARC ISA.[2]

There are three classes of source code:

Common	Source sharable by all platforms (machines) and all Instruction Set Architectures
ISA Specific	Source specific to a given Instruction Set Architecture and usable by all platforms within that architecture.
Platform Specific	Source specific to one or more platforms, but not all platforms with a particular Instruction Set Architecture

Note that common source code is common by being independent of architectural features. The code might not be applicable on all architectures. For example, source code for a compatibility package needed for one class of machines (e.g. a source file dealing with COFF load module support for x86) is common because it does not have SPARC or x86 dependencies, even though the resulting package might never be shipped on a SPARC CD.

A module built from one or more source files (e.g. a library, a loadable kernel module, or an executable file) is either a platform independent module (PIM) or a platform specific module (PSM). Clearly a module can run only on a platform based on the ISA for which it was compiled, so there is no such thing as an ISA-independent module built from compiled code.

---

2. Historically usage is a bit more confusing. The *uname* command returned *sparc* or *i86pc* indicating ISA. *arch* -k returned the so-called kernel architecture, such as *sun4c* now called platform.

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(tm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with the trial fax transmission result.

This file is a sample MS Word file; many other file types are supported

If you have any questions regarding Interpage's OutFax(tm) Service, including the FaxUnlimited(tm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 9AM to 5:30 PM M-F Pacific Time
E-Mail: inet-support@interpage.net
Web: http://www.interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages, only the above fixed sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the form located at *https://www.interpage.net/cgi-bin/ff-trial.html*, omitting any billing information, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is it an offer- it was sent by a visitor to Interpage's web site who entered your destination number as a recipient of the test fax. A single destination may not receive more than two tests in a given week, however. If you find that someone is sending you faxes in a continuous and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.
